Advice No. 3115
(U 904 G)

Public Utilities Commission of the State of California

Subject: February 2002 Core Procurement Charge Update

Southern California Gas Company (SoCalGas) hereby submits for filing revisions to its tariff schedules, applicable throughout its service territory, as shown on Attachment B.

This filing is made in compliance with Ordering Paragraphs 1, 2 and 3 of Decision No. 98-07-068, dated July 23, 1998, in addition to Decision No. 96-08-037.

Purpose

This routine monthly filing revises the listed tariff rate schedules by updating the Core Procurement Charge for residential customers and for core commercial and industrial customers for February 2002.

Information

Decision No. (D.) 98-07-068 authorizes SoCalGas to 1) change the calculation of its forecasted portfolio weighted average cost of gas using best estimates of the weighted volumes and prices of flowing supplies from the different supply basins delivered to the California/Arizona border for the purposes of calculating its Core Procurement Charge, 2) file the Core Procurement Charge tariffs on the last business day of each month to become effective on the first calendar day of the following month, and 3) establish a Core Purchased Gas Account (CPGA) imbalance band of $\pm 1\%$ of the actual annual commodity gas purchases for the preceding 12-month period ending March 31 of each year, wherein adjustments would be made to the Core Procurement Charge only if the CPGA imbalance falls outside of such band.

For residential customers and for core commercial and industrial customers the February 2002 Core Procurement Charge is 18.159¢ per therm, a decrease of 8.350¢ per therm from last month.
