Advice No. 3487  
(U 904 G)

Public Utilities Commission of the State of California

**Subject: Post-Test Year Rate Adjustment for 2005**

Southern California Gas Company (SoCalGas) hereby submits for approval by the California Public Utilities Commission (Commission) revisions to SoCalGas' tariff schedules, applicable throughout its service territory, as shown on Attachment B.

The rate change is effective as of January 1, 2005, with the first five months booked to the Cost of Service Revenue Requirement Memorandum Account (COSRRMA) and the transportation rates changed effective beginning June 1, 2005 as filed herein.

This filing is made in compliance with Ordering Paragraph No. (OP) 2 of Decision (D.) 05-03-023, dated March 17, 2005, in Phase 2 of SoCalGas' Cost of Service (COS) Application (A.) 02-12-027.

**Purpose**

This filing implements the base margin adjustment for 2005, as authorized by Appendix C, Settlement Agreement Regarding Phase 2 Base Margins Issues, of D.05-03-023.

**Information**

For post-test year ratemaking, OP 2 of D.05-03-023 authorizes SoCalGas to file for rate adjustments using mechanisms as described in the COS Settlement Agreement beginning in 2005. The Settlement Agreement at Page 10 authorizes SoCalGas to file an advice letter on or before November 1, 2004 to propose adjustments in authorized revenues for 2005. Because D.05-03-023 was not issued until March 17, 2005, SoCalGas is now filing for the 2005 margin adjustment.

The overall change is an increase of \$28.027 million over SoCalGas' current transportation revenue requirement. The increase consists almost entirely of a \$27.950 million (2.0%) PBR base margin increase authorized for 2005 (see CPI Indexing Mechanism section below). The remainder is an increase of \$0.077 million in the

Sempra-Wide EG Adjustment. All rate changes are filed to be effective concurrently with the SDG&E gas base margin indexing to equalize the Sempra-Wide EG rate.

### **CPI Indexing Mechanism**

The COS Settlement Agreement at Pages 9-10 states that:

“...annual authorized base margin...shall be equal to the previous year’s authorized base margin, with exclusions as provided herein, times one plus the forecast percentage change in the [U.S.] Consumer Price index—All Urban Consumers (“CPI”) for the upcoming year over the previous year. The forecast percentage change shall be the October Global Insight CPI forecast for the upcoming year divided by the forecast for the current year, minus one....Notwithstanding the forecast CPI change, the minimum and maximum authorized adjustments relative to the previous year’s authorized base margin will be as follows: for SoCalGas [year] 2005: minimum of 2.0%, maximum of 3.0%.”

SoCalGas’ 2004 authorized base margin (SoCalGas revenue requirement less exclusions) was \$1,397,508,000. Global Insight’s October 2004 CPI forecast was 1.8870 for 2004 and 1.9213 for 2005, a predicted 2005 CPI increase of 1.82% (1.9213 / 1.8870 – 1). Since 1.82% is below SoCalGas’ approved minimum adjustment, the minimum of 2.0% will be used. SoCalGas’ 2005 authorized base margin (less exclusions) is therefore:

1.020 x \$1,397,508,000 = **\$1,425,458,160** (an increase of \$27,950,160 over 2004).

As filed in Advice No. 3484, dated April 1, 2005, SoCalGas’ Preliminary Statement Part XI, Performance Based Regulation (PBR), Section D.1, indicates that the base margin revenue requirements established for 2005 are the PBR-indexed portion of the 2004 base margin, plus the add-back of pension costs, PBOPS and RD&D revenue requirements which were excluded from the PBR indexing calculations. SoCalGas’ 2005 authorized base margin including the PBR-indexing exclusions and other authorized adjustments is therefore the sum of the following components:

\$1,425,458,160	PBR-indexed COS Base Margin
\$4,000,000	Base Margin Pension Costs
\$47,500,000	Base Margin PBOPS Costs
\$8,000,000	Base Margin RD&D Costs
<u>\$1,484,958,160</u>	Total COS Base Margin <sup>1</sup>

<sup>1</sup> The Total Authorized Base Margin in rates is \$2 million lower than the Total COS Base Margin. In AL 3386, 2003 Shareable Earnings, SoCalGas calculated revenue adjustments for the 2003 Customer Count true-up and allowance for Mobilehome Master Meter Conversions totaling \$2 million. The \$2 million decrease was implemented in rates effective January 1, 2005.

**Revenue Requirement Impact by Class of Service**

This amount shall be the total annual base revenues authorized by the Commission. The authorized gas margin pursuant to SoCalGas Advice No. 3487, effective June 1, 2005, is \$1,482,962,000. Of the total revenues \$1,273,387,000 is allocated to the core market and \$196,278,000 is allocated to the noncore market. The allocated noncore margin includes EOR revenues of \$20,010,000, and an unbundled storage cost of \$21,000,000. Unallocated costs are \$13,297,000.

K. CORE PRICING FLEXIBILITY (Continued)

2. Class Average Long Run Marginal Cost (LRMC) Floor Rates

a. D.98-01-040, Finding of Fact No. 5, allows SoCalGas the option to discount core transportation rates down to a LRMC floor rate; however, SoCalGas may not discount the cost of gas. For this program, the LRMC floor rate includes the following components: customer related, medium-pressure distribution, high-pressure distribution, transmission, seasonal storage, load balancing, company use transmission, unaccounted for gas, and interstate pipeline demand charges. In addition to these components, the full transportation rate includes the following components: non-marginal costs in base margin, ITCS, PITCO/POPCO transition costs, core averaging costs, and other exclusion costs.

b. The following table lists the full LRMC transportation rates authorized by D.97-04-082, and the class average LRMC floor rates authorized by D.98-01-040. LRMC Floor Rates were updated with new values established in D.00-04-060, D.01-12-018 and SoCalGas Advice No. 3487, effective June 1, 2005. Full Transportation Rates are updated with new values established in D.00-04-060, Resolution G-3303, D.01-12-018 and SoCalGas Advice No. 3487, effective June 1, 2005. The floor rates represent the lowest possible average annual rate by class under which SoCalGas can serve gas. These rates represent a starting point for the program and, pursuant to Commission order, may be modified in future rate proceedings.

<u>Class</u>	<u>Full Transportation Rate</u>	<u>LRMC Floor Rate</u>
Residential	44.6 cents/therm	27.7 cents/therm
G-10, 0 to 3 Mth	69.7 cents/therm	40.5 cents/therm
G-10, 3-50 Mth	27.1 cents/therm	15.1 cents/therm
G-10, 50-250 Mth	19.6 cents/therm	10.9 cents/therm
G-10, >250Mth	13.0 cents/therm	8.5 cents/therm
Gas A/C	13.7 cents/therm	10.0 cents/therm
Gas Engines	19.9 cents/therm	13.5 cents/therm

c. Optional tariffs or negotiated rate contracts that would result in average annual rates below class average LRMC will be subject to Commission approval through the Expedited Application Docket (EAD) process.

d. With prior Commission approval under the EAD process, SoCalGas may discount average annual rates to a floor of customer-specific LRMC that includes the full interstate pipeline reservation charges allocated to core customers (excluding ITCS).
