Advice No. 3545
(U 904 G)

Public Utilities Commission of the State of California

Subject: Emergency 2005-2006 Winter Gas Initiative in Compliance with Decision 05-10-044

Southern California Gas Company (SoCalGas) hereby submits for filing revisions to its tariff schedules, applicable throughout its service territory, as shown on Attachment B.

Purpose

This filing complies with Ordering Paragraph (OP) 18 of Decision (D.) 05-10-044 dated October 27, 2005, by revising SoCalGas' tariffs and forms, as described below, to implement the adopted 2005-2006 winter gas initiative.

Pursuant to OP 1 the applicable rate schedules and Rule No. 1 (Definitions) are revised to expand the California Alternate Rates for Energy (CARE) program eligibility to include all customers with income at or below 200% of Federal poverty guidelines.

Pursuant to OP 6, this filing also revises the CARE program applications and forms to reflect the revised income guidelines.

In compliance with OP 4, 5 and 16, other changes to be effective during this winter program, November 1, 2005 through April 30, 2006, include the following revisions to:

- 1) Schedule Nos. GSL, GT-SL, G-CARE, GN-10L, GT-10L, G-AC and GT-AC in order to allow the Utility to enroll CARE customers by telephone, and suspend CARE recertification and post enrollment verification.
- 2) Rule No. 7 (Deposits) to reflect that the Utility will waive deposits for CARE customers;
- 3) Rule No. 9 (Discontinuance of Service) to reflect that the Utility shall not disconnect service for non-payment of bills by residential customers who pay at least 50% of their current bill and agree to participate in and comply with the LevelPay Payment Option or, at the Utility's discretion, comply with a plan to repay all past due

amounts within nine months. In addition, the Utility shall not disconnect CARE customers after the winter months if the customer agrees to, and complies with, a plan to repay all past due amounts within nine months.

- 4) Rule No.10 (Service Charges) to state that the Utility will waive the reconnection fees for CARE customers; and
- 5) Rule No. 12 (Payment of Bills) to remove the restrictions on master meter customers eligible for the Level Pay Plan (LPP). In addition, SoCalGas' current LPP is designed with an end-of-plan-year settlement as described in Rule 12.D.6.c and d. In compliance with D.05-10-044 SoCalGas will make modifications to its LPP program to fine-tune its adjustment process and terminate the end-of-plan-year settlements. These adjustments will require significant modifications of its billing systems. SoCalGas will make every effort to have these modifications completed by February 2006, which will be before any settlement bills are created from this winter season.

Background

It is anticipated that natural gas prices will be exceptionally high this winter, with utility bills as much as 70% higher than comparable bills last year. These cost increases will certainly create a burden for all customers, but the California Public Utilities Commission (Commission) is especially concerned about the potential impacts on low-income residential customers. On October 6, 2005, the Commission held a full-panel hearing in Los Angeles to more closely study the impacts and to solicit proposals for providing low-income customers with greater bill protection this winter. Most of the proposals received relate to two existing programs: CARE, which provides discounted rates for qualifying low-income energy customers and the Low-Income Energy Efficiency Program, which provides weatherization and appliance replacement services for qualifying low-income customers.

Protest

Anyone may protest this Advice Letter to the California Public Utilities Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. **The protest must be made in writing and received within five (5) days of the date this Advice Letter was filed with the Commission pursuant to OP 18 of D.05-10-044.** There is no restriction on who may file a protest. A copy of the protest shall also be sent via both e-mail and facsimile to the address shown below on the same date it is mailed or delivered to the Commission.

15. Transportation Imbalance Service shall be provided to the customer's ESP under Schedule No. G-IMB.
16. Customers with multiple facilities (under the same customer name) who comply with provisions for becoming an ESP may participate in the Program, but must designate a single account under which charges for imbalance services are to be billed.
17. In the event the ESP defaults on any payments to SoCalGas, the ESP's customers shall be responsible for SoCalGas' billings, excluding any ESP Procurement Management Charges, as defined in Rule No. 1, regardless of any billing arrangements the customer has with the ESP or any third parties.
18. SoCalGas shall continue to read customer meters, send customers legally required notices and bill inserts pursuant to Public Utilities Code 454(a), and provide customers with all other regular SoCalGas services. This includes direct billing, unless the customer specifies in the electronic Service Request DASR effective with the implementation of D.98-02-108, that SoCalGas bill the ESP for all charges.
19. Master metered customers who aggregate their gas supplies and purchase gas from a third party may only charge their submetered tenants the maximum rate equal to SoCalGas' applicable prevailing rates, as if the tenant was purchasing gas directly from SoCalGas. If the price negotiated with the third party was less than SoCalGas' rates, the master metered customer may choose to share the profit with the submetered tenants. However, the master metered customer shall not charge more than SoCalGas' prevailing rates even if the negotiated price is higher than SoCalGas' rates.
20. Master metered customers shall provide an itemized billing of charges to each individual submetered tenant. Such billing shall generally conform to the structure and content of SoCalGas' billings to its customers. Master metered customers shall also post, in a conspicuous place, the rate schedule which would be applicable to the submetered tenant if the tenant were a customer of SoCalGas.
21. 2005/2006 Winter Gas Initiative. Pursuant to Ordering Paragraphs 4 and 5 of D.05-10-044, for the period November 1, 2005 through April 30, 2006, the Utility: 1) may enroll CARE customers by telephone, 2) shall not rebill any customer so enrolled who is later found ineligible for the CARE program, and 3) shall suspend CARE recertification and post enrollment verification.

CARE

18. Eligibility Requirements: The CARE discount shall apply to non-profit group living facilities and non-licensed, separately metered affiliated facilities, such as homeless shelters, women's shelter, transitional housing (e.g., for drug rehabilitation, halfway house, etc.), short- or long-term care facility (hospice, nursing home, senior's or children's home), a group home for physically or mentally disabled persons, or non-profit residential facility whose construction was government-subsidized and meets all other applicable criteria. Student housing/dorms, military barracks, fraternities/sororities, government-owned, and privately owned "for profit" government-subsidized housing are excluded. The exclusion of government-owned and government-subsidized housing does not apply to homeless shelters.

The discount shall apply to non-licensed, separately metered affiliates of qualifying non-profit group facilities so long as the customer of record is the qualifying non-profit facility.

Each resident of the facility or the non-licensed, separately metered facility (100%) must meet the CARE income eligibility standards for a single-person household to qualify for the G-ACL rate. At least 70% of the energy consumed on the CARE rate must be used for residential purposes.

SoCalGas shall require the facility to provide a copy of its IRS Non-Profit Tax ID Form 501(c)(3), and state business license, conditional use permit or any other proof satisfactory to SoCalGas. Facilities that have been qualified by SoCalGas under self-certification or self-recertification and are receiving the rate discount may be subject to random post-enrollment verification by SoCalGas.

An authorized representative of the facility shall sign Form No. 6571 certifying that any savings derived from the discount shall be used for the direct benefit of the residents. Such direct benefit may be in the form of improved quality of care or improved food service.

Customers who are found to be ineligible or fail to timely notify SoCalGas when they no longer qualify for the rate discount may be subject to corrective rebilling under the appropriate rate schedule.

Upon completion of Form No. 6571 and acceptance, eligible facilities or their affiliates shall receive the discount commencing with the next regularly scheduled bill.

Income Eligibility Requirements for Residents: The total annual household income from all sources (taxable and non-taxable) shall not be more than \$27,700 for each resident of the facility, and the resident shall not be claimed on another person's income tax return.

18. (Continued)

The owner or authorized representative of the facility shall notify SoCalGas within 30 days following any change that may impact the facility's eligibility for the discount.

Self-Certification and Self-Recertification Requirements: Non-profit group living facilities must provide proof of the appropriate state license to care for residents who, either temporarily or permanently, cannot function normally outside of the group-home environment and certification from the appropriate state agency showing what services, besides lodging, are provided, or any other proof satisfactory to SoCalGas. Primary facilities must meet the licensing and certification requirements, but not their separately-metered affiliated facilities.

Homeless shelters must provide verification that at least six (6) beds each day or night are provided for a minimum of 180 days each year for persons who have no alternate residence, and must provide proof of a valid municipal or county conditional-use permit or any other proof satisfactory to SoCalGas. Non-profit group living facilities are not required to be licensed or certified.

Self-Recertification Requirements: Facilities will be required to recertify on an annual basis. At the time of each annual certification, SoCalGas shall require the facility, including homeless shelters, to certify how it intends to pass-on the rate discount.

Random Post-Enrollment Verification: The self-certification and self-recertification application for CARE benefits, and certification of the flow-through of the rate discount, shall be made under penalty of perjury under the laws of the State of California by the same individual who is responsible for the annual renewal of the facility's license from the appropriate state agency, when applicable.
