Advice No. 3590
(U 904 G)

Public Utilities Commission of the State of California

Subject: List of Service Providers - Pursuant to Rule IV.C.2

Southern California Gas Company (SoCalGas) hereby submits for filing this Advice Letter in compliance with Rule IV.C.2 of the Affiliate Transaction Rules as set forth in Commission Decision (D.) 97-12-088 and D.98-08-035.

Purpose

This complies with the requirement for SoCalGas to file a list of service providers, by advice letter, on a semi-annual basis. The lists of service providers that operate in SoCalGas' service territory, which may be provided to SoCalGas' customers by its employees in appropriate situations, are incorporated herein as Attachment B. As required by the Rule, SoCalGas will update, expand, and add additional lists in semi-annual filings with the Commission as appropriate.

Additional Information

As stated in Rule IV.C.2, "If a customer requests information about any affiliated service provider, the utility shall provide a list of all providers of gas-related, electricity-related, or other utility-related goods and services operating in its service territory, including its affiliates. The Commission shall authorize, by semi-annual utility advice letter filing, and either the utility, the Commission, or a Commission-authorized third party provider shall maintain on file with the Commission a copy of the most updated lists of service providers which have been created to disseminate to a customer upon a customer's request. Any service provider may request that it be included on such list, and, barring Commission direction, the utility shall honor such request. Where maintenance of such list would be unduly burdensome due to the number of service providers, subject to Commission approval by advice letter filing, the utility shall direct the customer to a generally available listing of service providers (e.g., the Yellow Pages). In such cases, no list shall be provided. If there is no Commission-authorized list available, utilities may refer customers to a generally available listing of service providers (e.g., the Yellow Pages). The list of service providers should make clear that the Commission does not guarantee the financial stability or service quality of the service providers listed by the act of approving this list." For the protection of the Commission and SoCalGas each list includes an appropriate disclaimer.

Listing of Attached Service Providers

Attachment B contains relevant service provider list information. Below is the complete list of these attachments:

- 1) Commission Authorized List of Registered Electric Service Providers
- 2) The League of California Homeowners "Approved" Contractors
- 3) SoCalGas Contracted Marketers with executed agreements
- 4) List of ESPs with executed Core Aggregation service agreements
- 5) Natural Gas Related Equipment Vendor Directory – Includes categories for Air-Conditioning, Air Compressor, Natural Gas Vehicle (NGV), Power Generation, Refrigeration, Water Pumping and Others

Anyone may protest this Advice Letter to the Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The protest must be made in writing and received within 20 days of the date of this Advice Letter. There is no restriction on who may file a protest. **Commission Authorized List of
Registered Electric Service Providers**

Registered Electric Service Providers

Updated on February 2, 2006 6:20 am PT

The Electric Service Providers (ESPs) on this list are registered with the California Public Utilities Commission (CPUC). [Public Utilities Code Section 394](#) defines an Electric Service Provider (ESP) as a non-utility entity that offers electric service to customers within the service territory of an electric utility. Subparagraph (b) requires each ESP to register with the CPUC and sets forth the registration requirements. The CPUC implemented the framework for ESP registration, specifically applying these requirements to ESPs serving residential and small commercial customers (maximum peak demand less than 20 kilowatts) in Decision no. [D.99-05-034](#) and [D.98-03-072](#). In [D.03-12-015](#), the CPUC extended these requirements to ESPs not previously required to register, as applicable.

= Has posted the required cash deposit or bond with the CPUC, as required to serve customers

Registered ESPs are also required to provide their residential and small commercial customers with a Notice of Terms and Conditions. This is known as a [Section 394.5 notice](#) (P.U. Code section 394.5). You can view a sample notice by clicking on the link.

IMPORTANT!

- Direct access is NOT available to new customers, as of September 20, 2001 by [Commission Decision \(D.\) 01-09-060](#).
- The CPUC has no information that can help in making a decision to invest in an ESP.
