Advice No. 3849
(U 904 G)

Public Utilities Commission of the State of California

Subject: April 2008 Core Procurement Charge Update

Southern California Gas Company (SoCalGas) hereby submits for filing revisions to its tariff schedules, applicable throughout its service territory, as shown on Attachment B.

Purpose

This filing is made in compliance with Ordering Paragraphs 2 and 3 of Decision No. (D.) 98-07-068, dated August 23, 1998 and revises the listed tariff rate schedules by updating the Core Procurement Charge for residential and core commercial and industrial customers for April 2008.

Information

D.98-07-068 authorizes SoCalGas to 1) change the calculation of its forecasted portfolio weighted average cost of gas using best estimates of the weighted volumes and prices of flowing supplies from the different supply basins delivered to the California/Arizona border for the purposes of calculating its Core Procurement Charge, 2) file the Core Procurement Charge tariffs on the last business day of each month to become effective on the first calendar day of the following month, and 3) establish a Core Purchased Gas Account (CPGA) imbalance band of $\pm 1\%$ of the actual annual commodity gas purchases for the preceding 12-month period ending March 31 of each year, wherein adjustments would be made to the Core Procurement Charge only if the CPGA imbalance falls outside of such band.

For residential and core commercial and industrial customers the April 2008 Core Procurement Charge is 95.747¢ per therm, an increase of 6.337¢ per therm from last month. The Adjusted Core Procurement Charge (G-CPA) reported in Schedule No. G-CP, which is used as an equivalent to the previously reported Core Subscription Procurement Charge, for April 2008 is 95.559¢ per therm, an increase of 7.535¢ per therm from last month.

Additionally, this filing revises SoCalGas' income-qualified rates to remove obsolete language that was added to reflect a credit for customers in the California Alternate Rates for Energy (CARE) program to provide reduced rates in compliance with D.06-02-034, dated

February 16, 2006, which directed that the benefits from storage cushion gas withdrawal be applied by March 31, 2008. This requirement has been accomplished. Moreover, the adjusted core procurement charge (G-CPA), described in Schedule No. G-CP, has been revised to include the carrying cost of storage inventory pursuant to D.07-12-019 to mirror the changes to the description under G-CPR and G-CPNR filed in AL 3846, Core Portfolio Combination Rate Revision, on March 26, 2008.
