Advice No. 3905  
(U 904 G)

Public Utilities Commission of the State of California

**Subject: October 2008 Core Procurement Charge Update, Winter Hedging GCIM Revision, and Cross-Over Rate Update**

Southern California Gas Company (SoCalGas) hereby submits for filing revisions to its tariff schedules, applicable throughout its service territory, as shown on Attachment B.

**Purpose**

This filing is made in compliance with Ordering Paragraphs 2 and 3 of Decision No. (D.) 98-07-068, dated August 23, 1998 and revises the listed tariff rate schedules by updating the Core Procurement Charge for residential and core commercial and industrial customers for October 2008.

In compliance with D.07-06-027, dated June 21, 2007, SoCalGas is revising Section B.4 of its Preliminary Statement, Part VIII, Gas Cost Incentive Mechanism (GCIM), to extend its hedging activities to the winter of 2008-2009 (November 2008 – March 2009).

Additionally, the Cross-Over Rates for October 1 through October 9, 2008, are revised to reflect approved transportation rates, effective October 1, 2008.

**Information**

**October 2008 Core Procurement Charge Update**

D.98-07-068 authorizes SoCalGas to 1) change the calculation of its forecasted portfolio weighted average cost of gas using best estimates of the weighted volumes and prices of flowing supplies from the different supply basins delivered to the California/Arizona border for the purposes of calculating its Core Procurement Charge, 2) file the Core Procurement Charge tariffs on the last business day of each month to become effective on the first calendar day of the following month, and 3) establish a Core Purchased Gas Account (CPGA) imbalance band of  $\pm 1\%$  of the actual annual commodity gas purchases for the preceding 12-month period ending March 31 of each year, wherein adjustments would be made to the Core Procurement Charge only if the CPGA imbalance falls outside of such band.

For residential and core commercial and industrial customers the October 2008 Core Procurement Charge is 67.960¢ per therm, a decrease of 0.914¢ per therm from last month. The Adjusted Core Procurement Charge (G-CPA) reported in Schedule No. G-CP, which is used as an equivalent to the previously reported Core Subscription Procurement Charge, for October 2008 is 67.772¢ per therm, a decrease of 0.914¢ per therm from last month.

#### Winter Hedging GCIM Revision

Section B.4 of Preliminary Statement, Part VIII is revised as follows:

4. Pursuant to D.07-12-019, all costs and benefits associated with SoCalGas' hedging activities for the winter seasons (i.e., beginning November through March of the following year) shall flow directly to core customers.

#### October 1 – October 9, 2008, Cross-Over Rate Update

Advice No. (AL) 3895, Firm Access Rights (FAR) Rate Implementation Filing, to be effective October 1, 2008, revises transportation rates to implement the unbundling of the five cents per decatherm FAR reservation charge. AL 3899, Cross-Over Rate for September 2008, effective for service on and after September 10, 2008, revised the listed tariff rate schedules showing the Cross-Over Rate cost of gas for applicable residential and core commercial and industrial customers.

During the period of October 1 – October 9, 2008, the Cross-Over Rates, as shown herein on Attachment B, are being revised to reflect the merging of the approved transportation rates that reflect unbundling of the five cents per decatherm FAR reservation charge, effective October 1, 2008, and the approved Cross-Over Rate cost of gas for September 2008 for applicable residential and core commercial and industrial customers, effective September 10 through October 9, 2008.

PRELIMINARY STATEMENT  
PART VIII  
GAS COST INCENTIVE MECHANISM

Sheet 1

A. GENERAL

The Gas Cost Incentive Mechanism (GCIM) replaces the Reasonableness Review as a means of reviewing the Utility Gas Procurement Department's (Gas Acquisition) natural gas purchasing activities for retail core (core) customers. The purpose of the GCIM is to provide market-based incentives to reduce the cost of gas to core customers and to provide appropriate objective standards against which to measure the Utility Gas Procurement Department's performance in gas procurement and transportation functions on behalf of core customers.

On an annual basis, the GCIM provides the Utility Gas Procurement Department with an incentive to achieve a cost of gas that is at or below the prevailing market price for gas, by establishing an annual benchmark budget. The actual gas costs incurred to meet the needs of core customers are measured against the annual benchmark budget. If the actual total gas cost is less than the annual benchmark budget, the cost savings is shared between ratepayers and shareholders based on a tiered formula with ratepayers receiving a progressively greater percentage of the GCIM gain over certain tolerances and within established sharing bands, subject to a cap on shareholders' benefit (see Section C.9). If the actual total gas cost is greater than the annual benchmark budget plus a specified tolerance, the excess cost penalty is split equally between shareholders and ratepayers. See Section C. for the detailed methodology used to calculate these components.

B. EFFECTIVE DATES

1. A three-year experimental GCIM was approved in D.94-03-076, effective April 1, 1994. The GCIM program was modified and extended for two years by D.97-06-061, effective April 1, 1997. The GCIM program extension remained in effect through March 31, 1999.
2. Pursuant to D.98-12-057, the GCIM is extended on an annual basis for 12-month cycles, beginning in Year 6, the period April 1, 1999 through March 31, 2000, unless the mechanism is modified or discontinued by further order of the Commission.
3. D.02-06-023 approved a Settlement Agreement sponsored by the Commission's Office of Ratepayer Advocates (now Division of Ratepayer Advocates or DRA), The Utility Reform Network (TURN) and SoCalGas, with amendments, which further modifies the GCIM and extended it for Year 7 (April 1, 2000 through March 31, 2001) and beyond, on an annual basis until further modified or terminated upon Commission Order.
4. Pursuant to D.07-12-019, all costs and benefits associated with SoCalGas' hedging activities for the winter seasons (i.e., beginning November through March of the following year) shall flow directly to core customers.
