Advice No. 3923
(U 904 G)

Public Utilities Commission of the State of California

**Subject: Revision to Schedule Nos. GM, Multi-Family Service, and G-CARE,
California Alternative Rates for Energy Program**

Southern California Gas Company (SoCalGas) hereby submits for filing with the Public Utilities Commission (Commission) revisions to its tariff schedules, applicable throughout its service territory, as shown in Attachment B.

Purpose

This filing revises Schedule Nos. GM and G-CARE in compliance with Assembly Bill (AB) 2857, which amended Public Utilities Code Section 739.5 to grant eligibility for the California Alternative Rates for Energy (CARE) program to residential users of gas service who are submetered and reside in master-metered multi-family dwelling units or mobile home parks in which not all of the individual units are submetered, and Ordering Paragraph (OP) 105 of Decision (D.) 08-11-031, which directs the four major investor-owned utilities (IOUs) to update their tariffs.

Background

Prior to the approval of AB 2857 and issuance of D.08-11-031, for SoCalGas' residential submetered customers to be eligible for the CARE program, all of the individual dwelling units in multi-family dwellings and mobile home parks served through a master meter, that is, served through one meter, on a single premises were required to be submetered.

On September 28, 2008, the State Legislature passed AB 2857, which amended Section 739.5 of the Public Utilities Code by adding the following section to the code:

(h) Notwithstanding any other provision of law or decision of the commission, the commission shall not deny eligibility for the California Alternative Rates for Energy (CARE) program, created pursuant to Section 739.1, for a residential user of gas or electric service who is a submetered resident or tenant served by a master-meter customer on the basis that some residential units in the master-meter customer's mobilehome park, apartment building, or similar residential complex do not receive gas or electric service through a submetered system.

AB 2857 requires the Commission to grant eligibility for the CARE program to residential users of gas service who are submetered and reside in master-metered multi-family dwellings or mobile home parks in which not all of the individual units are submetered.

On November 10, 2008, the Commission issued D.08-11-031 in Application (A.) 08-05-025 with an effective date of November 6, 2008. OP 105 of D.08-11-031 states:

“We order IOUs to update their tariffs in order to comply with the amendment to AB 2857 (Lieber) within 60 days of the effective date of this decision.”

Proposed Changes

Schedule No. GM, Sheet 1, Applicability, is revised to add the following language after the sixth paragraph:

“This schedule is applicable to income-qualified households that meet the requirements for the California Alternate Rates for Energy (CARE) as set forth in Schedule No. G-CARE.”

Schedule No. G-CARE, Sheet 1, Applicability, item 2, is revised. The language that describes a type of customer that meets the requirement for CARE eligibility is revised to the following language which no longer excludes a residential user of gas service who is submetered and resides in master-metered multi-family dwelling or mobile home park in which not all of the individual units are submetered from being eligible for the CARE program:

“Multi-family dwelling units and mobile home parks supplied through one meter on a single premises where the individual unit is submetered.”
