Advice No. 3940
(U 904 G)

Public Utilities Commission of the State of California

Subject: January 1, 2009 Consolidated Rate Update

Southern California Gas Company (SoCalGas) hereby submits for approval by the California Public Utilities Commission (Commission) revisions to SoCalGas' tariff schedules, applicable throughout its service territory, as shown on Attachment B, to be effective January 1, 2009.

Purpose

This filing consolidates SoCalGas' rate adjustments authorized by the Commission pursuant to decisions and advice letters effective January 1, 2009, which state: "SoCalGas will file an advice letter consolidating all Commission-authorized changes in its revenue requirements, and the related changes to its rates, at least three days prior to the January 1, 2009 effective date of such rates, including an adjustment for the Sempra-wide common electric generation rate".

Information

This advice letter implements the rate adjustments requested by compliance Advice Nos. (AL) 3862, 3890, 3906, 3910 and 3933, and Decision No. (D.) 08-07-046.

PBR Shareable Earnings Filing

SoCalGas AL 3862, dated May 1, 2008, and approved by letter dated May 29, 2008, implements the annual PBR mechanism adjustment in 2009 rates. Under the PBR earnings sharing mechanism, for the year ended December 31, 2007, SoCalGas' exceeded its authorized Rate of Return resulting in sharing of \$43.4 million between ratepayers and shareholders. The ratepayers' allocation of earnings above authorized levels, grossed-up for taxes and franchise fees and uncollectible costs, is \$24.1 million. Combined with the shareholder award for SoCalGas exceeding the PBR benchmark on all of its five customer service and safety performance indicators, the net amount due to ratepayers is \$22.1 million for 2007. By removing the \$21.7 million reduction in 2008 rates related to the 2006 PBR shareable earnings filing, rates for 2009 will decrease by a net \$0.4 million.

Surcharge to CARE Transportation Rates

On October 1, 2008 SoCalGas filed AL 3906 in compliance with OP 3 of D.05-11-027 dated November 18, 2005, and AL 3561 dated December 10, 2005 and approved January 7, 2006, which established the necessary procedures for allocating to SoCalGas' California Alternate Rates for Energy (CARE) procurement customers the well work costs associated with maintaining the deliverability capability at the Aliso and Goleta storage fields as a result of releasing the cushion gas to CARE customers pursuant to D.05-11-027. The base margin revenue requirement related to the capital project for Year 2009 is approximately \$2.669 million, a decrease of \$0.241 million compared to the 2008 revenue requirement used to establish the 2008 surcharge rate.

As authorized by AL 3906, approved by letter dated November 7, 2008 for rates effective January 1, 2009, SoCalGas implements a surcharge rate of 0.537 cents/therm, as reflected in the revised tariffs in Attachment B, to recover the revenue requirement of \$2.669 million related to Year 2009 associated with the capital project from CARE customers.

Annual Update of Regulatory Account Balances

SoCalGas AL 3910, dated October 15, 2008, and approved by letter dated November 21, 2008 implements the annual update of regulatory account balances for amortization in 2009 rates, and complies with the longstanding practice of updating SoCalGas' revenue requirement for projected year-end regulatory account balances as established in OP 2 of D.94-12-052. AL 3910 requests an increase of \$12.3 million in core customers' revenue requirement and a decrease of \$26.1 million in noncore customers' revenue requirement, for a net decrease of \$13.8 million.¹

Disposition of the Noncore Storage and the G-PAL Memorandum Accounts

SoCalGas AL 3933, dated December 5, 2008, and approved on December 24, 2008, revises SoCalGas' rates to incorporate the ratepayers' projected 2008 allocation of net revenues from the unbundled storage program and hub services in transportation rates effective January 1, 2009, consistent with the terms of the Settlement Agreement adopted by the BCAP Phase 1 D.08-12-020. AL 3933 implements a decrease in SoCalGas' transportation revenue requirement of \$32.6 million (i.e., \$32.076 million plus franchise fees and uncollectibles). The core customer revenue requirement will decrease by \$11.7 million while the noncore customer revenue requirement will decrease by \$20.9 million as a result of the refund of the ratepayers' share of 2008 net revenues from the unbundled storage program and hub services.

¹ CAT Transmission Charges, excluding NGV, include a 0.075 cents per therm charge to amortize an undercollection in the FERC Settlement Proceeds Memorandum Account during 2009 as authorized in Advice No. 3910 approved on November 21, 2008. The applicable tariffs as shown in Attachment B have been revised accordingly.

GRC Post-Test Year Rate Adjustment for 2009

Pursuant to Decision 08-07-046, 2008 General Rate Case (GRC), on August 11, 2008 SoCalGas filed AL 3890 to revise among other things Preliminary Statement Part XI, Performance Based Regulation, to establish the authorized annual revenue requirement change for attrition years subsequent to the post-test year 2008. For 2009, SoCalGas' annual revenue requirement will increase by \$52.898 million (i.e., \$52.0 million plus franchise fees and uncollectibles). AL 3890 was approved by letter dated October 6, 2008.

The revenue requirement below also includes an increase in the Sempra-wide EG and system integration adjustment of \$0.774 million and \$0.449 million, respectively. The system integration adjustment ensures that customers of SoCalGas and SDG&E pay for the combined transmission costs of both utilities pursuant to D.06-04-033 and AL 3771. All rate changes are filed to be effective concurrently with the SDG&E consolidated gas transportation rates to equalize the Sempra-wide EG rate effective January 1, 2009.

Included with this filing are a combined Summary of Annual Gas Transportation Revenues (Attachment C) and a table that summarizes the above mentioned components of the change in revenue requirement (Attachment D).

This amount shall be the total annual base revenues authorized by the Commission. The authorized gas margin pursuant to SoCalGas Advice No. 3940, effective January 1, 2009, is \$1,496,279,000. Of the total revenues \$1,359,519,000 is allocated to the core market and \$119,664,000 is allocated to the noncore market. The allocated noncore margin includes EOR revenues of \$11,978,000, and an unbundled storage cost of \$21,000,000. Unallocated costs are \$17,095,000.

PRELIMINARY STATEMENT
 PART XI
PERFORMANCE BASED REGULATION

(Continued)

I. CORE PRICING FLEXIBILITY (Continued)

2. Class Average Long Run Marginal Cost (LRMC) Floor Rates

- a. D.98-01-040, Finding of Fact No. 5, allows SoCalGas the option to discount core transportation rates down to a LRMC floor rate; however, SoCalGas may not discount the cost of gas. For this program, the LRMC floor rate includes the following components: customer related, medium-pressure distribution, high-pressure distribution, transmission, seasonal storage, load balancing, company use transmission, unaccounted for gas, and interstate pipeline demand charges. In addition to these components, the full transportation rate includes the following components: non-marginal costs in base margin, ITCS, PITCO/POPCO transition costs, core averaging costs, and other exclusion costs.
- b. The following table lists the full LRMC transportation rates authorized by D.97-04-082, and the class average LRMC floor rates authorized by D.98-01-040. LRMC Floor Rates were updated with new values established in D.00-04-060, D.01-12-018, and SoCalGas Advice No. 3940, effective January 1, 2009. Full Transportation Rates are updated with new values established in D.00-04-060, Resolution G-3303, D.01-12-018, D.06-12-031, Resolution G-3407 and SoCalGas Advice No. 3940, effective January 1, 2009. The floor rates represent the lowest possible average annual rate by class under which SoCalGas can serve gas. These rates represent a starting point for the program and, pursuant to Commission order, may be modified in future rate proceedings.

<u>Class</u>	<u>Full Transportation Rate</u>	<u>LRMC Floor Rate</u>
Residential	45.5 cents/therm	23.3 cents/therm
G-10, 0 to 3 Mth	76.0 cents/therm	36.2 cents/therm
G-10, 3-50 Mth	27.8 cents/therm	10.8 cents/therm
G-10, 50-250 Mth	19.4 cents/therm	6.5 cents/therm
G-10, >250Mth	10.3 cents/therm	4.2 cents/therm
Gas A/C	14.0 cents/therm	5.7 cents/therm
Gas Engines	11.6 cents/therm	4.4 cents/therm

- c. Optional tariffs or negotiated rate contracts that would result in average annual rates below class average LRMC will be subject to Commission approval through the Expedited Application Docket (EAD) process.
- d. With prior Commission approval under the EAD process, SoCalGas may discount average annual rates to a floor of customer-specific LRMC that includes the full interstate pipeline reservation charges allocated to core customers (excluding ITCS).

RESIDENTIAL SERVICE

Sheet 1

(Includes GR, GR-C, GT-R, GRL and GT-RL Rates)

APPLICABILITY

The GR rate is applicable to natural gas procurement service to individually metered residential customers.

The GR-C, cross-over rate, is a core procurement option for individually metered residential core transportation customers with annual consumption over 50,000 therms, as set forth in Special Condition 10.

The GT-R rate is applicable to Core Aggregation Transportation (CAT) service to individually metered residential customers, as set forth in Special Condition 11.

The GRL procurement rate and GT-RL (CAT) rates are applicable to income-qualified households that meet the requirements for the California Alternate Rates for Energy (CARE) as set forth in Schedule G-CARE. The CARE discount of 20% is reflected in the GRL and GT-RL rates shown below.

STREET AND OUTDOOR LIGHTING
NATURAL GAS SERVICE

Sheet 1

APPLICABILITY

Applicable to natural gas service supplied from the Utility's core portfolio, as defined in Rule No. 1, for continuous street and outdoor lighting in lighting devices approved by the Utility. Service under this schedule is conditional upon arrangements mutually satisfactory to the customer and the Utility for connection of customer's lighting devices to Utility's facilities.

The minimum term of service hereunder is one month, as described in Special Condition 2.

TERRITORY

Applicable throughout the system.

RATES

The charges are based upon the monthly non-residential procurement charge as set forth in Schedule No. G-CP; and the GN-10 class average transportation rate.

The non-residential procurement charge is determined as set forth in Schedule No. G-CP, in the manner approved by D.96-08-037, and subject to change monthly as described in Special Condition 3.

PEAKING SERVICE

Sheet 1

APPLICABILITY

This schedule applies to gas transportation service provided to any noncore customer who bypasses SoCalGas' service, in part or in whole. For the purposes of this schedule, bypass is defined as any situation where a customer of SoCalGas becomes connected to, and receives gas from an alternate supply source or an alternate gas transportation service provider.

TERRITORY

Applicable throughout the service territory.

CONTRACT QUANTITY

The customer will specify a Maximum Daily Quantity (MDQ) for service under this peaking service tariff. Metered usage above the customer's MDQ will be subject to an overrun charge, as specified below.

FIRM SERVICE RATES

The charges set forth herein are in lieu of any charges specified under the otherwise applicable rate schedule.

Customer Charge

The customer charge will be collected as a monthly fee equal to 1/12 of the annualized cost for all customer-related facilities and marketing costs. The customer charge will be based on the scaled-LRMC customer-related facilities cost plus the direct assigned marketing costs for the otherwise applicable customer class.
