Advice No. 3992
(U 904 G)

Public Utilities Commission of the State of California

Subject: Publication of Open Season Results for Line 7000 in the San Joaquin Valley, and Update regarding the Imperial Valley System Expansion

Southern California Gas Company ("SoCalGas") hereby submits for filing with the California Public Utilities Commission ("Commission") this publication of the results of the Open Season held for firm service contracts commencing April 1, 2009 for Line 7000 in the San Joaquin Valley. Additionally, SoCalGas is updating the Commission on the expansion of the Imperial Valley System (Line 6902) by installing Line 6914.

Background

SoCalGas has identified the Imperial Valley and San Joaquin Valley as potentially constrained areas since 2001. SoCalGas conducted Open Seasons in both areas in 2003, 2005, and 2007. The 2009 San Joaquin Valley Open Season was held for firm service contracts commencing on April 1, 2009 with use-or-pay obligations. In Imperial Valley, based on the 2007 open season results and an analysis of likely future demand, SoCalGas determined that an expansion was necessary. Pursuant to AL 3747, the Imperial Valley System was expanded to relieve the constraint. Therefore, an open season was not held in the Imperial Valley, and firm full service contracts were offered to all noncore eligible customers.

San Joaquin Valley Open Season Results

SoCalGas sent bid packages to one hundred twenty-six (126) customers currently noncore, noncore eligible, or expected to be noncore eligible within the term of this Open Season. Forty-one (41) customers bid for firm noncore service, thirty-two (32) elected core service, fifty-one (51) elected interruptible noncore, and one (1) account closed. Two of the firm customers were large customers and therefore were required to bid a five-year term. SoCalGas was able to award all customer bids for firm noncore service. There were six (6) customers that switched from firm to interruptible, and four (4) customers that switched from interruptible to core within the San Joaquin Valley potentially constrained area.

The existing infrastructure is adequate to supply all core and firm noncore requirements and no expansions are planned at this time. Based on these results, and in accordance with

Special Condition 36 of Schedule No. GT-F, Firm Intrastate Transmission Service, if the Commission agrees that no expansion is needed; SoCalGas will reduce the commitment for the San Joaquin Valley large customers from five years to two years, consistent with the term for small customers. Schedule No. GT-F Special Condition 36 states in part as follows:

36. Term: "...In the event all requests for firm noncore capacity can be awarded without proration and the Utility does not plan to expand the local transmission system within the five-year contract period, the Utility will inform the Commission. Upon Commission agreement that there is no need to construct additional facilities within the five-year contract period, the Utility shall amend the five-year contracts to expire after two-years, consistent with the term for small customers."

Current capacity in the San Joaquin Valley is 180 MMcfd. Peak firm demand (core 1-in-10 year cold day demand plus noncore firm bids) is 146 MMcfd, leaving excess capacity of at least 34 MMcfd through 2011. Based on these results and SoCalGas' analysis of likely firm demand, SoCalGas has determined that no additional facilities are needed at this time.

Upon Commission agreement that there is no need to construct additional facilities within the five-year contract period, SoCalGas shall amend the term of the five-year contracts for large customers to expire after two years, consistent with the term for small customers and in compliance with Special Condition 36 of Schedule No. GT-F.

Imperial Valley System Expansion

Due to the Imperial Valley system expansion, an open season for firm service was not offered. Seven (7) noncore eligible customers were offered firm transportation service. Of those seven, three are core, two are noncore interruptible, and two are noncore firm. There is one customer with a long term transportation contract, and one large customer that was prorated in the 2007 open season with a five (5) year term. The prorated customer will be awarded their full bid amount per Special Condition 45 of Schedule No. GT-F, and the term will be adjusted to two (2) years beyond the in-service date of the system expansion per Special Condition 36. Schedule No. GT-F Special Conditions 36 and 45 state in part as follows:

36. Term: "...For large noncore customers, the term for firm service shall be the earlier of (a) two (2) years beyond the in-service date of facilities associated with the expansion of local transmission service, or the commencement of service on interstate and/or foreign pipelines or other arrangements that alleviate the need for expanding local transmission facilities, limited to the contractual commitments approved in D.07-05-022; or (b) five (5) years. For small noncore customers, the term is two years."

45. Awarding of Firm Noncore Capacity: "...After, and to the extent, the Utility places into service facilities that can provide higher levels of firm service, all customers' awards will be increased by a pro-rated amount, up to their bid amounts, for the duration of their contracts. During the term of its contract, a large customer may not change its bids for firm service for any of the time periods in the Addendum..."

Per AL 3747, in order to meet an expected increase in firm demand, SoCalGas installed Line 6914, which consists of 22 miles of 24-inch diameter pipe to loop the Imperial Valley transmission system north from El Centro towards Niland. This expansion increased the capacity of the Imperial Valley transmission system by 114 MMcfd, from 86 MMcfd to 200 MMcfd.

Protest

Anyone may protest this Advice Letter to the Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The protest must be made in writing and must be received within 20 days of the date of this Advice Letter. There is no restriction on who may file a protest. The address for mailing or delivering a protest to the Commission is:

CPUC Energy Division
Attn: Tariff Unit
505 Van Ness Avenue
San Francisco, CA 94102

Copies of the protest should also be sent via e-mail to the attention of both Maria Salinas (mas@cpuc.ca.gov) and to Honesto Gatchalian (jnj@cpuc.ca.gov) of the Energy Division. A copy of the protest should also be sent via both e-mail and facsimile to the address shown below on the same date it is mailed or delivered to the Commission.

Attn: Sid Newsom
Tariff Manager - GT14D6
555 West Fifth Street
Los Angeles, CA 90013-1011
Facsimile No. (213) 244-4957
E-mail: snewsom@SempraUtilities.com

Effective Date

SoCalGas believes this Advice Letter is subject to Energy Division disposition and should be classified as Tier 2 (effective after staff approval) pursuant to GO 96-B. SoCalGas respectfully requests that it be made effective on July 3, 2009, which is 30 calendar days after the date filed.

Notice

A copy of this advice letter is being sent to all parties listed on Attachment A to this advice letter, which includes the interested parties in R.04-01-025.

EXPLANATION OF UTILITY TYPE

ELC = Electric GAS = Gas
PLC = Pipeline HEAT = Heat WATER = Water

(Date Filed/ Received Stamp by CPUC)

Advice Letter (AL) #: 3992

Subject of AL: Publication of Open Season Results for Line 7000 in the San Joaquin Valley and
Update Regarding the Imperial Valley Expansion

Keywords (choose from CPUC listing): Capacity, Contracts, Natural Gas, Non-core

AL filing type: Monthly Quarterly Annual One-Time Other _____

If AL filed in compliance with a Commission order, indicate relevant Decision/Resolution #:

D.06-09-039

Does AL replace a withdrawn or rejected AL? If so, identify the prior AL _____

Summarize differences between the AL and the prior withdrawn or rejected AL¹: _____

Resolution Required? Yes No

Requested effective date: July 3, 2009

No. of tariff sheets: None

Estimated system annual revenue effect (%): None

Estimated system average rate effect (%): _____

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: None

Service affected and changes proposed¹: None

Pending advice letters that revise the same tariff sheets: N/A

Protests and all other correspondence regarding this AL are due no later than 20 days after the date of this filing, unless otherwise authorized by the Commission, and shall be sent to:

CPUC, Energy Division

Attention: Tariff Unit
