Advice No. 4009
(U 904 G)

Public Utilities Commission of the State of California

**Subject: Modification of Schedule No. G-TBS, Transaction Based Storage Service,
Pursuant to Decision (D.) 08-12-020**

Southern California Gas Company (SoCalGas) hereby submits for approval by the California Public Utilities Commission (Commission) minor revisions to its Schedule No. G-TBS, Transaction Based Storage Service, applicable throughout its service territory, as shown on Attachment B.

Purpose

This Advice Letter revises, in compliance with D.08-12-020, Special Condition 20 of SoCalGas' current and effective Schedule No. G-TBS.

Background

On December 4, 2008, the Commission issued D.08-12-020 approving the August 22, 2008 Joint Motion For Adoption of Settlement Agreement and Immediate Suspension of Briefing Schedule for Phase One Issues¹.

The Settlement Agreement (SA) appended to the August 22, 2008 Joint Motion, mentioned above, requires SoCalGas to allocate certain amounts of unbundled storage capacities to Southwest Gas Corporation (SWG) and the City of Long Beach (Long Beach) for their core customer requirements. Sections II.13 and II.14 of the SA provide as follows:

13. SWG shall be allocated storage capacity from the unbundled storage program at the same rates included in this SA for the combined core customers of SDG&E/SoCalGas upon approval of this SA by the Commission, as revised in future cost allocation proceedings (BCAP or TCAP) to reflect new embedded costs. Initially, upon approval of this SA by the Commission, SWG shall be allocated 1.98% of the storage capacities (injection, inventory, and withdrawal) allocated to the combined core customers of SDG&E/SoCalGas in this SA. If, however, SWG's

¹ D.08-12-020, Ordering Paragraph 1, p. 34

core load or portion of core load is directly served under an agreement between Pacific Gas and Electric Company and SWG during the term of this SA, SWG's percentage of storage capacity set-asides will be adjusted not earlier than April 1 of the subsequent year to reflect the ratio of SWG's core load served by SoCalGas and the capacities allocated to the combined core customers of SDG&E/SoCalGas. SWG will have the option to reduce its commitment in each future BCAP or TCAP cycle during the settlement period.

14. Long Beach shall be allocated storage capacity from the unbundled storage program at the same rates included in this SA for the combined core customers of SDG&E and SoCalGas as revised in future cost allocation proceedings (BCAP or TCAP) to reflect new embedded costs. Initially, upon approval of this SA by the Commission, Long Beach shall be allocated storage inventory capacity of 0.635 Bcf, storage injection capacity of 2.9 MMcfd, and storage withdrawal capacity of 31.6 MMcfd. On April 1, 2012, Long Beach may increase its allocated storage capacities to 0.700 Bcf of inventory, 3.3 MMcfd of injection capacity and 36 MMcfd of withdrawal capacity. Long Beach may reduce its allocated storage capacities in each future BCAP or TCAP during the settlement period.

The proposed revisions to Special Condition 20 of Schedule No. G-TBS are needed to make the tariff consistent with the provisions in D.08-12-020 requiring allocations of unbundled storage capacity to SWG and Long Beach.

Requested Tariff Change

Special Condition 20 of Schedule No. G-TBS will now read:

Allocations for Wholesale Customers

20. The Utility will allocate unbundled storage capacities to the City of Long Beach and Southwest Gas in a manner consistent with D.08-12-020 and any applicable CPUC decisions relating to storage allocations to these customers.

SPECIAL CONDITIONS (Continued)

Storage Open Season

15. The Utility may also sell G-TBS storage using various forms of storage open seasons, including auctions and individual negotiations.

Posting Requirements

16. The Utility will post all G-TBS storage transactions on its EBB within one business day of execution, including the counterparty name, quantity of storage services contracted on an unbundled basis, contract prices, and contract term.
17. Given that the value of storage services are highly dynamic, and can change not only daily, but even hourly, the Utility is not required to offer posted prices or contract terms to any other customers. The Utility will meet and confer with any market participant regarding why it did not offer them the same prices and contract terms as other posted transactions. If, after such a meet and confer session, any market participant is not satisfied with the Utility's explanation, they may petition the CPUC, pursuant to Section I of Rule No. 4, to require the Utility to offer them the same prices and contract terms as other posted transactions, and the Utility may oppose such petition.
18. The Utility shall post on its EBB as soon as practicable prior to each nomination cycle the injection and withdrawal capacity of its storage system. The Utility shall post on its EBB the aggregate scheduled injection and withdrawal amounts for the completed gas flow day.

Firm Inventory

19. Zero-priced, lowest-priority, interruptible injection and withdrawal service shall be included with all sales of inventory, whether that inventory is sold on a stand-alone or package basis.

Allocations for Wholesale Customers

20. The Utility will allocate unbundled storage capacities to the City of Long Beach and Southwest Gas in a manner consistent with D.08-12-020 and any applicable CPUC decisions relating to storage allocations to these customers.
