Advice No. 4237
(U 904 G)

Public Utilities Commission of the State of California

Subject: 2010 PBR Safety Performance Filing

Southern California Gas Company (SoCalGas) hereby submits for approval with the California Public Utilities Commission (Commission) its 2010 performance filing. This filing is made in compliance with Decision (D.) 08-07-046, and Preliminary Statement Part XI, Performance Based Regulation (PBR), in SoCalGas' General Rate Case (GRC) Application (A.) 06-12-010.

Background

On July 31, 2008, the Commission issued D.08-07-046 adopting, among other things, the Settlement Agreements regarding SoCalGas' revenue requirements for its Test Year 2008 GRC and post-test year ratemaking and incentive proposals. The GRC period covers a minimum of four years beginning January 1, 2008.

Pursuant to the adopted 2008 GRC decision and its adopted tariffs¹, SoCalGas is subject only to the performance incentive for employee safety².

Purpose

The purpose of this filing is to report the reward or penalty for the Employee Safety Performance Indicator and, consistent with previous filings, the results of the Core Pricing Flexibility Program and Noncore Competitive Load Growth Opportunity Program as adopted in D.97-07-054 and D.00-04-060, respectively, and continued in the 2008 GRC.

Employee Safety Performance Indicator

The reward or penalty for employee safety is determined based on the Federal Occupational Safety and Health Administration (OSHA) frequency standard, measuring the regulated utility's OSHA recordable lost time and non-lost time injuries and illnesses against total utility working hours. For the year ending December 31, 2010, SoCalGas experienced 296 lost

¹ Advice No. 3890 was approved on October 6, 2008 and made effective January 1, 2008.

² Pursuant to the GRC decision, on August 29, 2008 SoCalGas sent a letter to the Executive Director of the Commission accepting only the performance incentive for employee safety. SoCalGas filed Advice No. 3900 to revise its PBR Preliminary Statement accordingly, which was approved on November 7, 2008 and made effective September 8, 2008.

time and non-lost time incidents. The 296 total OSHA recordable incidents result in a frequency of 4.73.

Employee Safety		2010
Total OSHA Recordable Cases		296
x 100 employees at 2,000 hours / year		200,000
= Total OSHA Recordable Hours		59,200,000
/ Total utility year-to-date work hours		12,520,122
= Total OSHA Frequency		4.73

For 2010, the reward or penalty for the Employee Safety Performance Indicator is based on the following parameters:

Employee Safety		2010
Benchmark		5.80
Deadband		5.63 - 5.97
Penalty Liveband		5.98 - 7.18
Reward Liveband		4.42 - 5.62
Incentive Rate		\$25,000/.01
Maximum Reward / Penalty		\$3,000,000

For 2010, SoCalGas' performance for its Employee Safety Performance Indicator resulted in a \$2,250,000 award calculated as follows:

Employee Safety		2010
Benchmark		5.80
Results Achieved		4.73
Results less than Benchmark		(1.07)
Less Deadband		0.17
Units below Benchmark		0.90
Conversion Factor		0.01
Units of Change for Award		90
Incentive per Unit		\$25,000
Reward		\$2,250,000

Upon approval of this advice letter by the Commission, SoCalGas will record the reward in its Rewards and Penalties Balancing Account for amortization in rates.

During 2010, SoCalGas provided continued focus in the following areas contributing to its Employee Safety success: (1) the Executive Safety Council provided leadership and critical directional decision-making for strategic safety initiatives and continued with its employee dialogue sessions to gain a deeper understanding of front-line safety issues and concerns; (2) statistical tracking of injuries and vehicle incident data to provide insight into preventive solutions; (3) performance of individual job observations to help define and reinforce safe behaviors; (4) employee and management involvement opportunities including safety committees and incident evaluation teams; (5) safety excellence awards designed to recognize and motivate frontline employees who demonstrate exceptional safety leadership; and (6) wellness through health fairs, health screenings, and stretching programs.

Pursuant to the 2008 GRC, SoCalGas is required to perform an annual internal audit to ensure the incentive mechanism for employee safety is implemented, operated, and calculated correctly and fairly. The internal audit report will disclose all audit findings and recommend any corrective actions. The employee safety award presented herein has been verified as a result of the audit, the details of which are provided in a separate letter to the Commission in accordance with the reporting requirements adopted in the 2008 GRC and incorporated in SoCalGas' Preliminary Statement Part XI, PBR³. The letter to the Commission will provide details of the internal audit and related findings.

Core Pricing Flexibility Program

In D.97-07-054 and D.98-01-040, the Commission authorized a Core Pricing Flexibility program for SoCalGas as detailed in Section K.2 of Advice No. 2687-A. This program remained unchanged with the approval of the 2008 GRC proceeding. Under this arrangement, SoCalGas' shareholders are responsible for any reduction in core revenues that may occur due to discounting, and likewise receive the benefit of any resulting gains. The Commission has authorized SoCalGas to adjust its Core Fixed Cost Account to reflect this arrangement. The Core Pricing Flexibility program produced incremental net revenues in the amount of \$324,094 for 2010.

Noncore Competitive Load Growth Opportunities Program

In D.00-04-060, the Commission authorized SoCalGas' revenue treatment for new negotiated contracts that are part of a California Red Team economic development effort and contracts where Rule No. 38 shareholder funding has been used. This program remained unchanged with the approval of the 2008 GRC proceeding. Under this arrangement, SoCalGas' shareholders are responsible for any reduction in noncore revenues that may occur due to discounting, and likewise receive the benefit of any resulting gains. The Commission has authorized SoCalGas to adjust its Noncore Fixed Cost Account to reflect this arrangement. The Noncore Competitive Load Growth Opportunities program produced incremental net revenues in the amount of \$706,761 for 2010.

³ Internal audit reports (both SoCalGas and SDG&E) were submitted on April 27, 2011 to the Director of the Energy Division, Director of the Consumer Protection and Safety Division, and the Director of the Division of Ratepayer Advocates. The internal audit reports are held confidential pursuant to the Commission's General Order 66-C and Public Utilities Code Section 583.

Protests

Anyone may protest this Advice Letter to the California Public Utilities Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The protest must be made in writing and must be received within 20 days of the date of this Advice Letter which is May 19, 2011. There is no restriction on who may file a protest. The address for mailing or delivering a protest to the Commission is:

CPUC Energy Division
Attn: Tariff Unit
505 Van Ness Avenue
