Advice No. 4252
(U 904 G)

Public Utilities Commission of the State of California

Subject: Publication of Open Season Results for the Rainbow Corridor

Southern California Gas Company (SoCalGas) hereby submits for filing with the California Public Utilities Commission (Commission) this publication of the results of the open season (Open Season) held for firm service contracts commencing after May 31, 2011, for customers served off the Rainbow Corridor, which consists of Line 1027 (16-inch diameter), Line 1028 (24-inch diameter) and Line 6900 (30- and 36- inch diameter), which run from Moreno Station south to Rainbow Station.

Background

The Rainbow Corridor has been determined to be a potentially constrained area. The first open season for the Rainbow Corridor, pursuant to Decision (D.) 06-09-039, was held for firm service contracts commencing or renewing after May 31, 2007, with the next open season held in 2009. The 2011 Rainbow Corridor Open Season was held for firm service contracts commencing on June 1, 2011 with use-or-pay obligations.

Rainbow Corridor Open Season Results

SoCalGas sent bid packages to the 24 customers that are either currently noncore, noncore eligible, or expected to be noncore eligible within the term of this Open Season. Seven customers bid for firm noncore service, 13 elected or remained core service, four elected or defaulted to interruptible noncore service. Two customers were considered large and therefore were required to bid a five-year term. One of the seven customers that bid for firm noncore service was SDG&E. SoCalGas was able to award all customer bids for firm noncore service. It should be noted that some noncore customers within the potentially constrained Rainbow Corridor area elected interruptible service. There is still a risk of interruptible service curtailment if these interruptible customers operate on a cold winter day.

The existing infrastructure is adequate to supply all core and firm noncore requirements and no expansions are planned at this time. Based on these results and in accordance with Special Condition 37 of Schedule No. GT-F, if the Commission agrees that no expansion is needed, SoCalGas will reduce the commitment for the Rainbow Corridor's large customers from five years to two years, consistent with the term for small customers. Schedule No. GT-F Special Condition 37 states as follows:

Term: For large noncore customers, the term for firm service shall be the earlier of (a) two (2) years beyond the in-service date of facilities associated with the expansion of local transmission service or the commencement of service on interstate and/or foreign pipelines or other arrangements that alleviate the need for expanding local transmission facilities, limited to the contractual commitments approval in D.07-05-022 or (b) five (5) years. For small noncore customers, the term is two years. In the event all requests for firm noncore capacity can be awarded without proration and the Utility does not plan to expand the local transmission system within the five-year contract period, the Utility will inform the Commission. Upon Commission agreement that there is no need to construct additional facilities within the five-year contract period, the Utility shall amend the five-year contracts to expire after two-years, consistent with the term for small customers.

Current capacity of the Rainbow Corridor and the SDG&E system is dependent upon the location of the customer demand on both systems. Based on the level of core demand in the Rainbow Corridor and on the SDG&E system, the current capacity of the SDG&E/Rainbow Corridor system is 725 MMcfd in the winter operating season and 670 MMcfd in the summer. This capacity was made available to both SoCalGas Rainbow Corridor customers and SDG&E customers during the Open Season. The solicitations result in peak firm demand (core and noncore) of 649 MMcfd in the winter (531 MMcfd on the SDG&E system, 118 MMcfd in the Rainbow Corridor) and 430 MMcfd in the summer (357 MMcfd on the SDG&E system, 73 MMcfd in the Rainbow Corridor), resulting in excess capacity in both operating seasons.

Protests

Anyone may protest this Advice Letter to the Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The protest must be made in writing and must be received within 20 days of the date of this Advice Letter, which is July 11, 2011. There is no restriction on who may file a protest. The address for mailing or delivering a protest to the Commission is:

CPUC Energy Division
Attn: Tariff Unit
505 Van Ness Avenue
San Francisco, CA 94102

Copies of the protest should also be sent via e-mail to the attention of both Maria Salinas (mas@cpuc.ca.gov) and to Honesto Gatchalian (ijnj@cpuc.ca.gov) of the Energy Division. A copy of the protest should also be sent via both e-mail and facsimile to the address shown below on the same date it is mailed or delivered to the Commission.
