Advice No. 4442
(U 904 G)

Public Utilities Commission of the State of California

Subject: January 1, 2013 Consolidated Rate Update

Southern California Gas Company (SoCalGas) hereby submits for approval by the California Public Utilities Commission (Commission) revisions to SoCalGas' tariff schedules, applicable throughout its service territory, as shown on Attachment B, to be effective January 1, 2013.

Purpose

This filing consolidates SoCalGas' rate adjustments authorized by the Commission pursuant to decisions and advice letters effective January 1, 2013, which state that SoCalGas will file an advice letter consolidating all Commission-authorized changes in its revenue requirements, and the related changes to its rates, at least three days prior to the January 1, 2013 effective date of such rates, including an adjustment for the Sempra-wide common electric generation rate.

Information

This Advice Letter implements the rate adjustments requested by compliance Advice No. (AL) 4411, Regulatory Account Update; AL 4110, Advanced Metering Infrastructure Balancing Account; AL 4317, SGIP Carryover Funding; AL 4424 and Decision (D.) 12-10-044, both related to the California Air Resources Board (CARB) Assembly Bill (AB) 32 Implementation Fee; D. 10-04-034, Honor Rancho Storage; D.12-11-015, On-Bill Financing; D. 12-12-032, Energy Efficiency Risk/Reward Incentive Mechanism; and D.12-12-034, 2013 Cost of Capital.

Annual Update of Regulatory Account Balances

SoCalGas AL 4411, dated October 15, 2012, and approved by letter dated December 10, 2012 implemented the annual update of regulatory account balances for amortization in 2013 rates, and complied with the longstanding practice of updating SoCalGas' revenue requirement for projected year-end regulatory account balances as established in Ordering Paragraph 2 of D.94-12-052. AL 4411 proposed a \$92.4 million decrease and \$12.9 million decrease in SoCalGas' transportation revenue requirement for core and noncore customers, respectively, resulting in a total net decrease of \$105.3

million. In addition, AL 4411 proposed an increase in the revenue requirement for Backbone Transportation Service (BTS) of \$24.3 million resulting in an increase in the BTS rate from \$0.110042 per decatherm per day to \$0.13763 per decatherm per day effective January 1, 2013.

Moreover, AL 4411 revised SoCalGas' revenue requirement for Company-Use (CU) Fuel and Unaccounted For (UAF) Gas costs. For 2013, SoCalGas forecasted an average gas price of \$3.61/MMBtu, a decrease of \$0.92/MMBtu from the \$4.53/MMBtu authorized for rates effective January 1, 2013, resulting in a decrease in the authorized costs for CU Fuel and UAF Gas of \$8.6 million compared to the present revenue requirement.

Advance Metering Infrastructure (AMI) Revenue Requirement for 2013

Pursuant to D.10-04-027, SoCalGas' AMI Decision, on May 10, 2010, SoCalGas filed AL 4110 which, among other things, updated the AMI revenue requirement to reflect the total costs and benefits as adopted in D.10-04-027 to be collected in rates beginning on January 1, 2012 and continuing through December 31, 2017. For 2013, SoCalGas' annual revenue requirement will increase by \$48.8 million (i.e., \$48.0 million plus franchise fees and uncollectibles (FF&U)). The total amount for AMI for 2013 will be \$84.6 million (i.e., \$83.2 million plus FF&U). AL 4110 was approved by letter dated August 4, 2010.

Self Generation Incentive Program (SGIP)

SoCalGas filed AL 4317, dated December 30, 2011 and approved by letter dated March 12, 2012, to recover \$23 million anticipated expenses to be incurred associated with active SGIP projects from the 2010 program year. Accordingly, for 2013, SoCalGas' revenue requirement will increase by an additional \$23.4 million (i.e., \$23 million plus FF&U).

Environmental Fee Memorandum Account (EFMA)

Pursuant to D.12-10-044, the Commission authorized SoCalGas to increase gas rates to collect the costs of the Air Resources Board Assembly Bill 32 administrative fees recorded in the EFMA. A total of \$17.9 million will be recovered in 2013 rates (\$17.6 million plus FF&U).

In AL 4424, dated November 15, 2012, and approved effective January 1, 2013, SoCalGas implemented a fee credit for end-use customers who pay AB 32 administrative fees directly to the CARB and are also billed for these costs embedded in SoCalGas' transportation rates. The credit, based on the EFMA undercollection noted above, is (0.302) cents per therm.

Addition of 1 BCF Storage Inventory

Pursuant to D.10-04-034, SoCalGas' Decision Addressing Application of SoCalGas to Amend Its Certificate of Public Convenience and Necessity for the Honor Rancho Natural Gas Storage Facility, core storage inventory will be 83 BCF in 2013 rates. These rates reflect an addition of 1 BCF in core storage inventory, along with a proportional share of injection capacity.

On-Bill Financing (OBF) Programs

Per D.12-11-015, dated November 8, 2012, the Commission approved the 2013-2014 Financing Budget of \$3.7 million for SoCalGas' OBF program over the two-year period. Half of the total funding, \$1.9 (including FF&U), will be recovered in 2013 rates. Accordingly, for 2013, SoCalGas' revenue requirement will increase by an additional \$0.9 million (including FF&U) to reflect the updated OBF budget in rates effective January 1, 2013.

Energy Efficiency Risk/Reward Incentive Mechanism

In D.12-12-032, the Commission authorized SoCalGas \$2.7 million for incentive earnings for 2010 for savings achieved associated with its energy efficiency programs. These incentive earnings will be recorded to the Rewards and Penalties Balancing Account in December 2012. Accordingly, for 2013, SoCalGas' revenue requirement will increase by an additional \$2.8 million (including FF&U) to reflect recovery of the incentive earnings in rates effective January 1, 2013.

Cost of Capital

In D.12-12-034, the Commission approved SoCalGas' updated costs of capital and capital structure, to become effective January 1, 2013 per Ordering Paragraph 6. The decision authorized a weighted-average Return on Rate Base (ROR) of 8.02%, which includes a Return on Common Equity (ROE) of 10.10%. These are decreases from SoCalGas' current ROR of 8.68% and ROE of 10.82%. The decision also increases SoCalGas' authorized capital ratio of common equity from 48.00% to 52.00% and decreases the authorized capital ratio of preferred stock from 6.39% to 2.40%. As a result, SoCalGas' base margin decreases by \$21.8 million (including FF&U).

Test Year (TY) 2012 General Rate Case (GRC)

This Consolidated Rate Update provided herein does not reflect the impact of SoCalGas' pending 2012 GRC. SoCalGas plans to file a separate advice letter to implement the impact on rates once the 2012 GRC decision has been issued, including the amortization of the GRC Memorandum Account.

Other Revenue Requirement Adjustments

The revenue requirement below also includes an increase in the Sempra-wide NGV adjustment of \$0.8 million, an increase in the Sempra-wide EG adjustment of \$1.4 million, an increase in the Transmission Level Service (TLS) adjustment of \$4.5 million and a decrease in the system integration adjustment of \$0.2 million. The system integration adjustment ensures that customers of SoCalGas and SDG&E pay for the combined transmission costs of both utilities pursuant to D.06-04-033 and AL 3771. All rate changes are filed to be effective concurrently with the SDG&E consolidated gas transportation rates to equalize the Sempra-wide NGV, EG and TLS rates effective January 1, 2013.

Included with this filing are a combined Summary of Annual Gas Transportation Revenues (Attachment C) and a table that summarizes the above mentioned components of the change in revenue requirement (Attachment D).

PART III
COST ALLOCATION AND REVENUE REQUIREMENT

(Continued)

B. REVENUE REQUIREMENT: (Continued)

13. PURCHASED COST OF GAS (SALES ONLY)

This amount is determined by multiplying the forecasted sales by the weighted average costs of gas (WACOG) in the Utility Portfolio.

14. FRANCHISE FEES AND UNCOLLECTIBLE ACCOUNTS EXPENSES (F&U)

The amount to be added for F&U shall be determined by multiplying the sum of items B.11 through B.13 times the most recently authorized F&U factor (Uncollectible accounts expenses do not apply to wholesale customers.)

15. GAS MARGIN

This amount shall be the total annual base revenues authorized by the Commission. The authorized gas margin pursuant to SoCalGas Advice No. 4442, effective January 1, 2013, is \$1,641,990,000. Of the total revenues, \$1,498,065,000 is allocated to the core market, \$105,291,000 is allocated to the noncore market and \$13,113,000 is allocated to wholesale and international. The allocated noncore margin includes EOR revenues of \$3,618,000, and an unbundled storage cost of \$25,520,000.

16. COST AND REVENUE ALLOCATION FACTORS

These factors were determined pursuant to D.01-12-018, D.09-11-006 and SoCalGas Advice No. 4061, effective February 1, 2010 and are used to allocate costs and revenues to the core and noncore customer classes.

I. CORE PRICING FLEXIBILITY (Continued)

2. Class Average Long Run Marginal Cost (LRMC) Floor Rates

a. D.98-01-040, Finding of Fact No. 5, allows SoCalGas the option to discount core transportation rates down to a LRMC floor rate; however, SoCalGas may not discount the cost of gas. For this program, the LRMC floor rate includes the following components: customer related, medium-pressure distribution, high-pressure distribution, transmission, seasonal storage, load balancing, company use transmission, unaccounted for gas, and interstate pipeline demand charges. In addition to these components, the full transportation rate includes the following components: non-marginal costs in base margin, PITCO/POPCO transition costs, core averaging costs, and other exclusion costs.

b. The following table lists the full LRMC transportation rates authorized by D.97-04-082, and the class average LRMC floor rates authorized by D.98-01-040. LRMC Floor Rates were updated with new values established in D.00-04-060, D.01-12-018, and SoCalGas Advice No. 4053, effective January 1, 2010. Full Transportation Rates are updated with new values established in D.00-04-060, Resolution G-3303, D.01-12-018, D.06-12-031, Resolution G-3407 and SoCalGas Advice No. 4442 effective January 1, 2013. The floor rates represent the lowest possible average annual rate by class under which SoCalGas can serve gas. These rates represent a starting point for the program and, pursuant to Commission order, may be modified in future rate proceedings.

<u>Class</u>	<u>Full Transportation Rate</u>	<u>LRMC Floor Rate</u>
Residential	53.6 cents/therm	23.3 cents/therm
G-10, 0 to 3 Mth	55.4 cents/therm	36.2 cents/therm
G-10, 3-50 Mth	24.4 cents/therm	10.8 cents/therm
G-10, 50-250 Mth	10.4 cents/therm	6.5 cents/therm
G-10, >250Mth	8.6 cents/therm	4.2 cents/therm
Gas A/C	6.0 cents/therm	5.7 cents/therm
Gas Engines	8.1 cents/therm	4.9 cents/therm
NGV	6.8 cents/therm	3.7 cents/therm

c. Optional tariffs or negotiated rate contracts that would result in average annual rates below class average LRMC will be subject to Commission approval through the Expedited Application Docket (EAD) process.

d. With prior Commission approval under the EAD process, SoCalGas may discount average annual rates to a floor of customer-specific LRMC that includes the full interstate pipeline reservation charges allocated to core customers.
