Advice No. 4662 (U 904 G)

Public Utilities Commission of the State of California

<u>Subject</u>: Biennial Report on Backbone Transmission and Slack Capacity in Compliance with Decision (D.) 06-09-039

Southern California Gas Company (SoCalGas) hereby submits its biennial report to demonstrate that it holds adequate backbone transmission capacity and has slack capacity consistent with its proposals in the Gas Market Rulemaking (R.04-01-025).

Purpose

This Advice Letter complies with Ordering Paragraph (OP) 3 of D.06-09-039 which states:

The Pacific Gas and Electric Company and the Southern California Gas Company shall demonstrate in biennial advice letter filings to the Commission's Energy Division starting 2008 that they hold adequate backbone transmission capacity and have slack capacity consistent with their proposals presented herein. The first filing is due July 1, 2008.

Background

In response to reports and ongoing changes in the natural gas market which indicated that there may not be sufficient natural gas supplies or infrastructure to meet the long-term needs of the state's residential and business customers, the Commission initiated R.04-01-025. In the Assigned Commissioner's Scoping Memo of February 28, 2005, the Commission identified the following question for consideration in Phase 2 of this proceeding.¹

Can the California gas utilities' existing infrastructure and operations adequately protect California from short-term or long-term natural gas shortages caused by the interruptions in natural gas supply?

-

¹ Phase 1 of this proceeding was limited to issues related to the utilities' acquisition of interstate capacity and was resolved in D.04-09-022.

Most of the natural gas transported via the interstate pipelines, as well as some of the California produced natural gas, is delivered into the PG&E and SoCalGas intrastate natural gas transmission pipeline systems (commonly referred to as California's "backbone" natural gas pipeline system). Natural gas on the utilities' backbone pipeline systems is then delivered into the local transmission and distribution pipeline systems, or natural gas storage fields.

In D.06-09-039, the Commission determined that it was "comfortable with the total amount of firm backbone transmission capacity on both the PG&E and SoCalGas systems." In an effort to continue to monitor the continuing sufficiency of backbone capacity on the PG&E and SoCalGas systems, the Commission also required PG&E and SoCalGas to demonstrate in advice letter filings with the Commission's Energy Division that they hold adequate backbone transmission capacity. These advice letter filings are to be made on a biennial basis, beginning July 1, 2008.

Capacity Information

In R.04-01-025, SoCalGas explained to the Commission that it held a 49% annual reserve margin at the time and that, historically, its reserve margins have been between 40%-50%. Table 1 and Figure 1 below illustrate that SoCalGas continues to hold adequate backbone transmission capacity and has a reserve margin of backbone capacity consistent with Commission policy. SoCalGas expects to hold a Reserve Margin of 37% in 2014 and to retain an average Reserve Margin of 39% through 2030.

Table 1⁵
SoCalGas Reserve Margin
One- in-Ten-Year Cold and Dry-Hydroelectric Condition

	•	1
Year	Annual Average Daily Demand (MMCFD)	Reserve Margin (%)
2014	2832	37
2015	2822	37
2016	2822	37
2017	2802	38
2018	2806	38
2019	2792	39
2020	2761	40
2025	2776	40
2030	2761	40

² D.06-09-039, mimeo., at 172 (Finding of Fact 12).

³ D.06-09-039, mimeo., at 27.

⁴ D.06-09-039, mimeo., at 171 (Finding of Fact 8). The Reserve Margin of backbone capacity in excess of demand on the SoCalGas system is derived by the formula: Reserve Margin = (Firm Daily Receipt Capacity – Average Daily Demand)/ Average Daily Demand.

⁵ Demand source: SoCalGas and SDG&E 2014 California Gas Report. Reserve margin relative to existing SoCalGas receipt capacity of 3,875 MMcfd.

Protest

Anyone may protest this Advice Letter to the Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The protest must be made in writing and must be received within 20 days of the date of this Advice Letter, which is July 21, 2014. There is no restriction on who may file a protest. The address for mailing or delivering a protest to the Commission is:

CPUC Energy Division Attention: Tariff Unit 505 Van Ness Avenue San Francisco, CA 94102

A copy of the protest should also be sent via e-mail to the attention of the Energy Division Tariff Unit (<u>EDTariffUnit@cpuc.ca.gov</u>). A copy of the protest shall also be sent via both e-mail and facsimile to the address shown below on the same date it is mailed or delivered to the Commission.

Attn: Sid Newsom Tariff Manager - GT14D6 555 West Fifth Street Los Angeles, CA 90013-1011 Facsimile No. (213) 244-4957

E-mail: snewsom@SempraUtilities.com

Effective Date

SoCalGas believes that this filing is subject to Energy Division disposition and should be classified as Tier 2 (effective after staff approval) pursuant to GO 96-B. SoCalGas respectfully requests that this filing be approved on July 31, 2014, which is 30 calendar days from the date filed.

Notice

A copy of this advice letter is being sent to SoCalGas' GO 96-B service list and the Commission's service list in R.04-01-025, Gas Market OIR. Address change requests to the GO 96-B should be directed by electronic mail to tariffs@socalgas.com or call 213-244-3387. For changes to all other service lists, please contact the Commission's Process Office at 415-703-2021 or by electronic mail at Process_Office@cpuc.ca.gov
