Advice No. 4680 (U 904 G)

Public Utilities Commission of the State of California

Subject: Cross-Over Rate for August 2014

Southern California Gas Company (SoCalGas) hereby submits revisions to its tariff schedules, applicable throughout its service territory, as shown on Attachment A.

<u>Purpose</u>

This routine monthly filing revises the listed tariff rate schedules showing the Cross-Over Rate for applicable residential and core commercial and industrial customers for August 2014 as authorized by the California Public Utilities Commission's (Commission) approval of SoCalGas' AL 3188-A on September 4, 2003, by Resolution G-3351. AL 3188-A was filed pursuant to Commission Decision (D.) 02-08-065 dated August 22, 2002, authorizing SoCalGas to implement revised uniform rules for noncore customers requesting core service, and core customers with an annual consumption over 50,000 therms who elect to switch from a Core Aggregation Transportation (CAT) marketer to utility procurement service.

Background

The Cross-Over Rate, as set forth in Schedule No. G-CP will be the higher of 1) the posted monthly core procurement rate or 2) an Adjusted California Border Price. The Border Price adjustment will reflect the fact that interstate transportation costs are included in the core transportation rate, as opposed to the core procurement rate, and therefore must be removed from the Border Price in order to make for a proper comparison (and to avoid charging cross-over customers twice for interstate transportation). Similarly, the core procurement rate does not include intrastate backbone costs which are also a component of the core transportation rate.

The Border Price is equal to the average of the first of the month "Southern Cal Border Avg." index from Natural Gas Intelligence and the "Southern California Gas Co., California" bid week index from Inside FERC's Gas Market Report. The Adjusted Border Price is equal to the Border Price, plus backbone transportation service charges as described in D.11-04-032.

This Cross-Over Rate will be applicable for the first 12 months of service for: (1) customers who transfer from noncore service to core procurement service, except the following customers: a) noncore customers who have been served under Schedule No. G-CS since January 1, 2001, or b) noncore customers who have been disqualified from noncore service and are required to return to core service; (2) non-residential core transportation customers who consumed over 50,000 therms in the last 12 months, unless such customer was returned to utility procurement because its gas supplier is no longer doing any business in California, or (3) non-residential core transportation customers with annual consumption over 50,000 therms who return to core procurement service and switch back to transportation only service within 90 days.

The Cross-Over Rate will be filed on or before the 9th calendar day of each month, to be effective the 10th calendar day of each month.

Requested Rate Revision

The Cross-Over Rate for August 2014 is 46.504 cents per therm, which is the same as the Core Procurement rate as filed by AL 4676 on July 31, 2014. The work paper showing the calculation of the Cross-Over Rate is incorporated herein as Attachment B.

ADVICE NO. 4680

G-CPNRC & G-CPRC RATE CALCULATION WORKPAPER SCHEDULE NO. G-CP CROSS-OVER RATE FILING EFFECTIVE AUGUST 10, 2014

Border Price Index (BPI)

The Border Price is equal to the average of the first of the month "Southern Cal Border Avg." index from Natural Gas Intelligence (NGI) and the "Southern California Gas Co., California" bid week index from Inside FERC (IFERC)

August 2014 NGI's Price Index (NGIPI) = \$0.41400 per therm

August 2014 IFERC Price Index (IFERCPI) = \$0.41400 per therm

Border Price Index (BPI) = (NGIPI + IFERCPI) / 2 BPI = \$0.41400 per therm

Adjusted Border Price Index (ABPI)

Remove Core Pipeline Demand Costs and Add BTS Reservation Charge to BPI ABPI = \$0.41400 - \$0.00000 + \$0.02223 = \$0.43623 per therm

Core Procurement Cost of Gas (CPC)

8/1/14 G-CPNR & G-CPR Cost of Gas (without Brokerage Fee) = \$0.46344

Adjusted Core Procurement Cost of Gas (ACPC)

Remove 1.7638% Franchise Fee and Uncollectibles (FF&U) ACPC = \$0.46344 / 1.017638 = \$0.45541 per therm

G-CPNRC & G-CPRC Cross-Over Rate Calculation:

Higher of ACPC or ABPI = ACPC = \$0.45541

Include 1.7638% Franchise Fee and Uncollectibles (FF&U) G-CPNRC & G-CPRC Cost of Gas = \$0.45541 * 1.017638 = \$0.46344 per therm
