Advice No. 4893 (U 904 G)

Public Utilities Commission of the State of California

#### **Subject: October 2015 Standby Procurement Charges**

Southern California Gas Company (SoCalGas) hereby submits for approval by the California Public Utilities Commission (Commission) revisions to its tariff schedules, applicable throughout its service territory, as shown in Attachment A.

#### **Purpose**

This routine monthly filing updates the Standby Procurement Charges in Schedule No. G-IMB for October 2015.

#### **Background**

Resolution G-3316, dated May 24, 2001, and Advice No. 4133, filed on July 2, 2010, and effective on August 1, 2010, revised the Schedule No. G-IMB Standby Procurement Charge for negative monthly transportation imbalances that exceed the 10% tolerance band. The Standby Procurement Charges are:

- 1. Calculated at 150% of the highest daily border price index at the Southern California border for the period plus a Brokerage Fee of 0.266¢ per therm for noncore retail service and all wholesale service, and 0.151¢ per therm for core retail service. The highest daily border price index is an average of the highest prices from "NGI's Daily Gas Price Index Southern California Border Average" and "ICE Daily Indices SoCal Border."
- 2. Calculated for a period that begins from the first day of the "flow month" (the month that the imbalance is incurred) and ends five days prior to the start of the imbalance trading period.

3. Posted at least one day in advance of the imbalance trading period.

#### <u>Information</u>

For the "flow month" of October 2015 (covering the period October 1, 2015, to November 20, 2015), the highest daily border price index at the Southern California border is \$0.26600 per therm. The resultant Standby Procurement Charges, calculated in the manner set forth above, are \$0.40165 per therm for noncore retail service and all wholesale service, and \$0.40059 per therm for core retail service. The work paper showing details of the calculation of these rates is incorporated herein as Attachment B.

#### **Protest**

Anyone may protest this Advice Letter to the Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The protest must be made in writing and received within 20 days of the date of this Advice Letter, which is December 13, 2015. There is no restriction on who may file a protest. The address for mailing or delivering a protest to the Commission is:

CPUC Energy Division Attention: Tariff Unit 505 Van Ness Avenue San Francisco, CA 94102

A copy of the protest should also be sent via e-mail to the attention of the Energy Division Tariff Unit (<a href="mailto:EDTariffUnit@cpuc.ca.gov">EDTariffUnit@cpuc.ca.gov</a>). A copy of the protest shall also be sent via both e-mail and facsimile to the address shown below on the same date it is mailed or delivered to the Commission.

Attn: Sid Newsom Tariff Manager - GT14D6 555 West Fifth Street Los Angeles, CA 90013-1011 Facsimile No. (213) 244-4957

E-Mail: <a href="mailto:snewsom@semprautilities.com">snewsom@semprautilities.com</a>

#### **Effective Date**

SoCalGas believes this Advice Letter is subject to Energy Division disposition and should be classified as Tier 1 (effective pending disposition) pursuant to GO 96-B. SoCalGas respectfully requests that the tariff sheets filed herein be made effective November 23, 2015, the date filed, in order to comply with the Resolution G-3316 requirement that the rates be posted at least one day in advance of the start of the imbalance trading period, which is November 25, 2015.

### **Notice**

A copy of this Advice Letter is being sent to SoCalGas' GO 96-B service list. Address change requests to the GO 96-B should be directed by electronic mail to <a href="mailto:tariffs@socalgas.com">tariffs@socalgas.com</a> or call 213-244-3387.

#### **RATES**

Imbalance quantities remaining at the end of the designated imbalance trading period and which are outside of the 10% tolerance band will be billed at the Standby Procurement Charge or purchased by the Utility at the Buy-Back Rate. Any Standby Procurement Charge or purchases at the Buy-Back Rate of core imbalances created by the Utility Gas Procurement Department will be managed within the Utility System Operator's Operational Hub Services. Such core imbalances will be disposed of, with the net revenues from the core imbalance charges flowing back through the Noncore Fixed Cost Account (NFCA).

#### Standby Procurement Charge

This charge is applied to customer's cumulative negative transportation imbalance (confirmed transportation deliveries less actual usage) exceeding the 10 percent tolerance band. The Standby Procurement Charge is posted at least one day in advance of each corresponding imbalance trading period for noncore/wholesale and core transport agents (CTAs). It is calculated at 150% of the highest daily border price index at the Southern California border beginning on the first day of the month that the imbalance is created to five days prior to the start of each corresponding imbalance trading period plus a Brokerage Fee of 0.266¢ per therm for noncore retail service and all wholesale service, and 0.160¢ per therm for core retail service. The highest daily border price index is an average of the highest prices from "NGI's Daily Gas Price Index – Southern California Border Average" and "ICE Daily Indices - SoCal Border."

# RATE CALCULATION WORK PAPER SCHEDULE NO. G-IMB STANDBY PROCUREMENT CHARGE FILING EFFECTIVE OCTOBER 2015

#### G-IMB Standby Procurement Charge Calculation

The highest daily border price index is an average of the highest prices from "NGI's Daily Gas Price Index - Southern California Border Average" and "Intercontinental Exchange Daily Indices - SoCal Border."

The highest daily border price index for the period was on October 16, 2015

10/16/15 NGI's Daily Gas Price Index (NDGPI) = \$0.26600 per therm

10/16/15 Intercontinental Exchange Daily Indices (ICEDI) = \$0.26599 per therm

Highest Daily Border Price Index (HDBPI) = (NDGPI + ICE) / 2

HDBPI = \$0.26600 per therm

SP-CR (Core Retail) = 150% x HDBPI + Core Brokerage Fee

**SP-CR** = 150% x \$0.26600 + \$0.00160 = **\$0.40059** 

SP-NR (Noncore Retail) = 150% x HDBPI + Noncore Brokerage Fee

**SP-NR** = 150% x \$0.26600 + \$0.00266 = **\$0.40165** 

SP-W (Wholesale) = 150% x HDBPI + Noncore Brokerage Fee

**SP-W** = 150% x \$0.26600 + \$0.00266 = **\$0.40165**
