Advice No. 5221 (U 904 G)

Public Utilities Commission of the State of California

Subject: October 2017 Standby Procurement Charges

Southern California Gas Company (SoCalGas) hereby submits for approval by the California Public Utilities Commission (Commission) revisions to its tariff schedules, applicable throughout its service territory, as shown in Attachment A.

<u>Purpose</u>

This routine monthly filing updates the Standby Procurement Charges in Schedule No. G-IMB for October 2017.

Background

Resolution G-3316, dated May 24, 2001, and Advice No. (AL) 4133, filed on July 2, 2010 and effective on August 1, 2010, revised the Schedule No. G-IMB Standby Procurement Charge for negative monthly transportation imbalances that exceed the 8% tolerance band. AL 5179, filed on August 28, 2017 and effective October 1, 2017, revised the Schedule No. G-IMB Standby Procurement Charge by replacing the "InterContinental Daily Indices – SoCal Border" with "SNL Energy's Daily Indices – SoCal Border." The Standby Procurement Charges are:

 Calculated at 150% of the highest daily border price index at the Southern California border for the period plus a Brokerage Fee of 0.266¢ per therm for noncore retail service and all wholesale service, and 0.208¢ per therm for core retail service. The highest daily border price index is an average of the highest prices from "NGI's Daily Gas Price Index - Southern California Border Average" and "SNL Energy's Daily Indices - SoCal Border."

- 2. Calculated for a period that begins from the first day of the "flow month" (the month that the imbalance is incurred) and ends five days prior to the start of the imbalance trading period.
- 3. Posted at least one day in advance of the imbalance trading period.

Information

For the "flow month" of October 2017 (covering the period October 1, 2017 to November 20, 2017), the highest daily border price index at the Southern California border is \$0.43515 per therm. The resultant Standby Procurement Charges, calculated in the manner set forth above, are \$0.65539 per therm for noncore retail service and all wholesale service, and \$0.65481 per therm for core retail service. The work paper showing details of the calculation of these rates is incorporated herein as Attachment B.
