Advice No. 5592  
(U 904 G)

Public Utilities Commission of the State of California

**Subject: Cross-Over Rate for September 2019**

Southern California Gas Company (SoCalGas) hereby submits revisions to its tariff schedules, applicable throughout its service territory, as shown on Attachment A.

**Purpose**

This routine submittal revises the listed tariff rate schedules showing the Cross-Over Rate for applicable residential and core commercial and industrial customers for September 2019 as authorized by the California Public Utilities Commission's (Commission or CPUC) approval of SoCalGas' Advice No. (AL) 3188-A on September 4, 2003, by Resolution G-3351. AL 3188-A was submitted pursuant to Commission Decision (D.) 02-08-065 dated August 22, 2002, authorizing SoCalGas to implement revised uniform rules for noncore customers requesting core service, and core customers with an annual consumption over 50,000 therms who elect to switch from a Core Aggregation Transportation (CAT) marketer to utility procurement service.

This submittal replaces AL 5512 in its entirety to correct the inadvertent omission of the franchise fees & uncollectibles expense charge when backing out the Backbone Transportation Service (BTS) Reservation charge and storage charge cost in order to compare the Adjusted Core Procurement Cost of Gas against the Adjusted California Border Price Index. The omission resulted in an understatement of the Cross-Over Rates in AL 5512.

AL 5512-A, Supplement - Cross-Over Rate for September 2019, was submitted on November 7, 2019 to replace AL 5512 in its entirety. Per procedural guidance from Energy Division, SoCalGas' request to supplement AL 5512, effective September 10, 2019, was submitted after the effective date, and a change to an effective advice letter cannot be made by a supplement. Therefore, SoCalGas withdrew AL 5512-A.

## **Background**

The Cross-Over Rate, as set forth in Schedule No. G-CP is comprised of the higher of 1) the posted monthly core procurement rate, less authorized franchise fees and uncollectible expenses (see the “**Adjusted Core Procurement Cost of Gas**” per therm calculation in Attachment B which establishes this value); or 2) the **Adjusted California Border Price Index** (also included in Attachment B), which consists of the California Border Price<sup>1</sup> and the BTS Reservation Charge.<sup>2</sup> The authorized franchise fees and uncollectible expenses charge, and the authorized core brokerage fee charge are then added to the chosen rate.

This Cross-Over Rate will be applicable for the first 12 months of service for: (1) customers who transfer from noncore service to core procurement service, except the following customers: a) noncore customers who have been served under Schedule No. G-CS since January 1, 2001, or b) noncore customers who have been disqualified from noncore service and are required to return to core service; (2) non-residential core transportation customers who consumed over 50,000 therms in the last 12 months, unless such customer was returned to utility procurement because its gas supplier is no longer doing any business in California, or (3) non-residential core transportation customers with annual consumption over 50,000 therms who return to core procurement service and switch back to transportation only service within 90 days.

The Cross-Over Rate will be submitted on or before the 9<sup>th</sup> calendar day of each month, to be effective the 10<sup>th</sup> calendar day of each month.

## **Requested Rate Revision**

The Cross-Over Rate for September 10, 2019 through October 9, 2019 is 30.918 cents per therm, which is the Adjusted California Border Price. The Adjusted California Border Price is higher than the Core Procurement rate, as submitted by AL 5505 on August 30, 2019. The work paper showing the calculation of the Cross-Over Rate is incorporated herein as Attachment B.

---

<sup>1</sup> The (un-adjusted) California Border Price is equal to the average of the first of the month "Southern Cal Border Avg." index from Natural Gas Intelligence and the "Southern California Gas Co., California" index from Inside FERC. The Adjusted Border Price is equal to the Border Price, plus BTS charges as described in D.11-04-032.

<sup>2</sup> The BTS Reservation Charge is calculated and included in the work papers accompanying SoCalGas' monthly core procurement rate update advice letter submittal. The work papers are Confidential and Protected Material Pursuant to PUC Code Section 583, General Order 66-D, and D.17-09-023.

The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The Cap-and-Trade Cost Exemption is applicable to customers who are identified by the California Air Resources Board (CARB) as being Covered Entities for their Greenhouse Gas (GHG) emissions as part of the Cap-and-Trade program. A customer who is supplying fuel to a facility on behalf of the owner (e.g., tolling arrangement) of a facility that has been identified by CARB as a Covered Entity, may receive the Cap-and-Trade Cost Exemption if so authorized by the facility owner and agreed to by the Utility. Applicable Cap-and-Trade Cost Exemptions may be provided from the date CARB identifies a customer as being a Covered Entity or provided based upon documentation satisfactory to the Utility for the time period for which the customer was a Covered Entity, whichever is earlier.
