Advice No. 5719
(U 904 G)

Public Utilities Commission of the State of California

Subject: 2020 Annual Compliance Report on Utility System Operator's Southern System Reliability Purchases and Sales (October 1, 2019, through September 30, 2020)

Southern California Gas Company (SoCalGas) hereby submits to the California Public Utilities Commission (Commission or CPUC) its 2020 Annual Compliance Report (ACR) to demonstrate that activities to maintain Southern System reliability from October 1, 2019, through September 30, 2020, are in compliance with the standards, criteria, and procedures described in Sections 10 through 20 of SoCalGas Rule No. 41.

Background

Pursuant to SoCalGas Rule No. 41, Section 26, SoCalGas is to submit an ACR on November 1 of each year regarding its Southern System reliability procurement activities:

On November 1 of each year, the Utility shall provide a report ("Annual Compliance Report") demonstrating that the Operational Hub's procurement activities during the preceding twelve months ending September 30 were in compliance with the standards, criteria and procedures described in Sections 10 through 20 above. The Annual Compliance Report shall be submitted to the Energy Division by Advice Letter and shall be subject to comment or protest. Upon Energy Division review and verification of the Annual Compliance Report and the CPUC Resolution approving the Annual Compliance Report, all the transactions entered into the SRMA balance for the year in question that are found reasonable by the Energy Division

shall be amortized in customer transportation rates over the following year.¹

In Resolution G-3480, the Commission provided additional direction regarding what information should be included in future ACRs:

3.(b) Incorporates a table, in the text of the ACR, that presents the number and percent of transactions and the corresponding dollar amount and percent of total dollars that SoCalGas asserts are reasonable by nature of having met the requirements of Rule 41.

...

5. SoCalGas shall incorporate, in all future ACRs, a table, as described in ordering paragraph 3.(b) and narrative explanations supported by appropriate documentation for any transactions to be evaluated as reasonable under Section 15 of Rule 41.²

Discussion

In accordance with Rule No. 41, SoCalGas hereby submits its ACR for the period October 1, 2019, through September 30, 2020. SoCalGas had no procurement activity for this period. Prolonged pipeline outages and maintenance on the SoCalGas northern system have resulted in customers increasing utilization of southern system receipt points in order to deliver an appropriate volume of gas to match their consumption. Therefore, SoCalGas had sufficient supplies at the southern system every day during the reporting period, and no spot purchases were required. For the same reasons, SoCalGas did not find it necessary to enter into either winter or summer baseload contracts during this period.

A. Transaction Overview

No transactions because there was no procurement during this period.

B. Transaction Detail

No transaction detail because there was no procurement during this period.

¹ The acronym "SRMA" in the quotation above refers to SoCalGas' System Reliability Memorandum Account. As explained in Rule No. 41, Section 21, "The cost and revenues of Operational Hub transactions (e.g., natural gas purchases, sales, or exchanges resulting from approved contracts) that are necessary to meet minimum flow requirements shall be recorded in the System Reliability Memorandum Account (SRMA)."

² Resolution G-3480 (June 27, 2013), pp. 12-13. After the issuance of this resolution, SoCalGas added new sections to Rule No. 41 (effective July 12, 2012), and the existing Section 13, 14, and 15 were changed to Sections 14, 15, and 16 in Rule No. 41 (effective June 1, 2018).

C. Over-nomination Event Information

In Resolution G-3486, the Commission approved a proposed revision to SoCalGas' Rule No. 30 to clarify the procedures used in situations where there is a system-wide over-nomination, yet additional supplies are needed on SoCalGas' Southern System. The Commission required that SoCalGas provide information concerning the impact of the Rule No. 30 revision in future ACRs. This information includes: a) the frequency of events where over-nominations occurred system-wide, yet the System Operator was required to maintain minimum flows to the Southern System; b) the effectiveness of the 10% margin of error and any need to increase or decrease the margin; and c) the observed impact on other receipt points.³ The referenced over-nomination event information is provided below.

a. Frequency

Because there was no procurement activity for additional supplies on SoCalGas' Southern System, a frequency analysis of events where over-nominations occurred system-wide, yet the System Operator was required to maintain minimum flows to the Southern System, is not applicable.

b. and c. The Margin of Error and Impact on Other Receipt Points

Because there was no procurement activity for additional supplies on SoCalGas' Southern System, the margin of error and impact analysis is not applicable.

Conclusion

Because no procurement activity was required for the period October 1, 2019 through September 30, 2020, SoCalGas does not request any transaction approval from the Commission.

Protest

Anyone may protest this Advice Letter to the Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The protest must be made in writing and must be received within 20 days of the date of this Advice Letter, which is November 19, 2020.
