<u>Advice No. 5752</u> (U 904 G)

Public Utilities Commission of the State of California

Subject: Cross-Over Rate for January 2021

Southern California Gas Company (SoCalGas) hereby submits revisions to its tariff schedules, applicable throughout its service territory, as shown on Attachment A.

<u>Purpose</u>

This routine submittal revises the listed tariff rate schedules showing the Cross-Over Rate for applicable residential and core commercial and industrial customers for January 2021 as authorized by the California Public Utilities Commission's (Commission or CPUC) approval of SoCalGas' Advice No. (AL) 3188-A on September 4, 2003, by Resolution G-3351. AL 3188-A was submitted pursuant to Commission Decision (D.) 02-08-065 dated August 22, 2002, authorizing SoCalGas to implement revised uniform rules for noncore customers requesting core service, and core customers with an annual consumption over 50,000 therms who elect to switch from a Core Aggregation Transportation (CAT) marketer to utility procurement service.

Background

The Cross-Over Rate, as set forth in Schedule No. G-CP is comprised of the higher of 1) the posted monthly core procurement rate, less authorized franchise fees and uncollectible expenses (see the "Adjusted Core Procurement Cost of Gas" per therm calculation in Attachment B which establishes this value); or 2) the Adjusted California Border Price Index (also included in Attachment B), which consists of the California Border Price¹ and the Backbone Transportation Service (BTS) Reservation Charge.²

¹ The (un-adjusted) California Border Price is equal to the average of the first of the month "Southern Cal Border Avg." index from Natural Gas Intelligence and the "Southern California

The authorized franchise fees and uncollectible expenses charge, and the authorized core brokerage fee charge are then added to the chosen rate.

This Cross-Over Rate will be applicable for the first 12 months of service for: (1) customers who transfer from noncore service to core procurement service, except the following customers: a) noncore customers who have been served under Schedule No. G-CS since January 1, 2001, or b) noncore customers who have been disqualified from noncore service and are required to return to core service; (2) non-residential core transportation customers who consumed over 50,000 therms in the last 12 months, unless such customer was returned to utility procurement because its gas supplier is no longer doing any business in California; or (3) non-residential core transportation customers with annual consumption over 50,000 therms who return to core procurement service and switch back to transportation only service within 90 days.

The Cross-Over Rate will be submitted on or before the 9th calendar day of each month, to be effective the 10th calendar day of each month.

Requested Rate Revision

The Cross-Over Rate for January 2021 is 39.764 cents per therm, which is the same as the Core Procurement rate, as submitted by AL 5748 on December 31, 2020. The work paper showing the calculation of the Cross-Over Rate is incorporated herein as Attachment B.

The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The monthly residential gas procurement charge is comprised of: (1) the weighted average estimated cost of gas (WACOG) for the current month, derived in the manner set forth in D.98-07-068, including reservation charges associated with interstate pipeline capacity contracts entered into by the Utility pursuant to D.04-09-022 and D.02-06-023, and the carrying cost of storage inventory pursuant to D.07-12-019; (2) authorized franchise fees and uncollectible expenses; (3) authorized core brokerage fee; (4) any adjustments for over- or under- collection imbalance in the Core Purchased Gas Account (CPGA) imbalance band as defined and approved in D.98-07-068; (5) backbone transportation service charges as described in D.11-04-032; and (6) an adjustment for the Gas Cost Incentive Mechanism (GCIM) reward/penalty pursuant to D.02-06-023. The CPGA component is an adder in the case of an under-collection and a subtracter in the case of an over-collection.

Cost of Gas, per therm	39.553¢
Brokerage Fee, per therm	0.211¢
Total Core Procurement Charge, per therm	39.764¢

#### **G-CPRC**

This is the residential Cross-Over Rate authorized in D.02-08-065. This charge will be applicable for the first 12 months for: (1) residential core transportation customers who consumed over 50,000 therms in the last 12 months and who transfer to utility procurement, or (2) residential core transportation customers with annual consumption over 50,000 therms who return to core procurement service and switch back to transportation only service within 90 days.

The monthly gas procurement charge is comprised of: (1) the higher of the Cost of Gas in the G-CPR rate above, less authorized franchise fees and uncollectible expenses, or the Adjusted Border Price; (2) authorized franchise fees and uncollectible expenses; and (3) authorized core brokerage fee.

The Border Price is equal to the average of the first of the month "Southern Cal Border Avg." index from Natural Gas Intelligence and the "Southern California Gas Co., California" index from Inside FERC. The Adjusted Border Price is equal to the Border Price, plus backbone transportation service charges as described in D.11-04-032.

Cost of Gas, (1) and (2) above, per therm	39.553¢
Brokerage Fee, per therm	0.211¢
Total Core Procurement Charge, per therm	39.764¢

The Border Price will be posted on the Utility's Internet web site at http://www.socalgas.com.

#### **ADVICE NO. 5752**

#### G-CPNRC & G-CPRC RATE CALCULATION WORKPAPER SCHEDULE NO. G-CP CROSS-OVER RATE SUBMITTAL EFFECTIVE JANUARY 10, 2021

#### **Border Price Index (BPI)**

The Border Price is equal to the average of the first of the month "Southern Cal Border Avg." index from Natural Gas Intelligence (NGI) and the "Southern California Gas Co., California" bid week index from Inside FERC (IFERC)

January 2021 BPI = \$0.32300

Adjusted Border Price Index (ABPI)

Add BTS Reservation Charge to BPI ABPI = \$0.34938 per therm

Core Procurement Cost of Gas (CPC)

1/1/21 G-CPNR & G-CPR Cost of Gas (without Brokerage Fee) = \$0.39553

Adjusted Core Procurement Cost of Gas (ACPC)

Remove 1.6972% Franchise Fee and Uncollectibles (FF&U) ACPC = \$0.39553 / 1.016972 = \$0.38893 per therm

**G-CPNRC & G-CPRC Cross-Over Rate Calculation:** 

Higher of ACPC or ABPI = ACPC = \$0.38893

Include 1.6972% Franchise Fee and Uncollectibles (FF&U) G-CPNRC & G-CPRC Cost of Gas = \$0.38893 * 1.016972 = \$0.39553 per therm

Include \$0.00211 Brokerage Fee G-CPNRC & G-CPRC Total Cost of Gas = \$0.39764 per therm
