PUBLIC UTILITIES COMMISSION
505 Van Ness Avenue
San Francisco CA 94102-3298

To: Energy Company Filing Advice Letter

From: Energy Division PAL Coordinator

Subject: Your Advice Letter Filing

The Energy Division of the California Public Utilities Commission has processed your recent Advice Letter (AL) filing and is returning an AL status certificate for your records.

The AL status certificate indicates:

- Advice Letter Number
- Name of Filer
- CPUC Corporate ID number of Filer
- Subject of Filing
- Date Filed
- Disposition of Filing (Accepted, Rejected, Withdrawn, etc.)
- Effective Date of Filing
- Other Miscellaneous Information (e.g., Resolution, if applicable, etc.)

The Energy Division has made no changes to your copy of the Advice Letter Filing; please review your Advice Letter Filing with the information contained in the AL status certificate, and update your Advice Letter and tariff records accordingly.

All inquiries to the California Public Utilities Commission on the status of your Advice Letter Filing will be answered by Energy Division staff based on the information contained in the Energy Division's PAL database from which the AL status certificate is generated. If you have any questions on this matter please contact the:

Energy Division's Tariff Unit by e-mail to
edtariffunit@cpuc.ca.gov

Advice No. 5832
(Southern California Gas Company U 904 G)

Advice No. 2993-G
(San Diego Gas & Electric Company U 902 G)

Public Utilities Commission of the State of California

Subject: Information-Only – Biannual Report on Cost Impacts Resulting from Decision (D.) 19-08-002 (Core Balancing / Advanced Meter Data Aggregation System) for the Period December 1, 2020 to May 31, 2021

Purpose

Pursuant to Ordering Paragraph (OP) 4 of D.19-08-002, Southern California Gas Company (SoCalGas) and San Diego Gas & Electric Company (SDG&E) collectively submit this Tier 1 Information-Only Advice Letter (AL) providing a biannual report on cost impacts to core customers as a result of requiring core customers to balance to estimated actual consumption, including number of Operational Flow Order (OFO) days and Gas Acquisition's mitigation measures.

Background

D.19-08-002 required the SoCalGas Gas Acquisition department to balance core deliveries to estimated actual consumption instead of a forecast, beginning April 1, 2020.¹ In support of this objective, D.19-08-002 directed SoCalGas and SDG&E to begin building an "Advanced Metering Infrastructure Data Aggregation System" (AMI DAS) as described within the decision.² While D.19-08-002 stated that SoCalGas and SDG&E should make all reasonable efforts to ensure the AMI DAS was completed by April 1, 2020,³ the decision also adopted a formula for use in estimating retail core consumption starting April 1, 2020, should the AMI DAS not be completed by that date.⁴

¹ D.19-08-002 at p. 32, (OP 2).

² *Id.* at p. 33, (OP 5).

³ *Id.* at p. 34, (OP 9).

⁴ *Id.* at pp. 32-33, (OP 3).

On September 3, 2019, SoCalGas submitted Advice No. 5511, providing its roadmap (on behalf of SoCalGas and SDG&E) for completing the AMI DAS. SoCalGas stated that the AMI DAS could not be completed until August 1, 2020, and further explained how SoCalGas would comply with D.19-08-002's requirement for Gas Acquisition to balance to estimated actual consumption starting April 1, 2020, while the AMI DAS was still being completed. SoCalGas' AMI DAS roadmap was approved by Resolution (Res.) G-3563 on March 12, 2020.⁵ The AMI DAS was fully implemented effective November 1, 2020.

In requiring Gas Acquisition to balance to estimated actual consumption rather than a forecast starting April 1, 2020, the Commission in D.19-08-002 also noted that "the cost impact to core customers remains an important consideration."⁶ The Commission sought to monitor the situation to ensure that core customers are not significantly impacted, and in doing so, required SoCalGas and SDG&E to "biannually submit an Information-Only AL that reports any cost impacts to core customers as a result of balancing to actual usage, including number of OFO days and Gas Acquisition mitigation measures taken."

Report on Cost Impacts to Core Customers

OFO Dates and Non-compliance Charges

For the reporting period December 1, 2020 through May 31, 2021, there were 81 OFOs declared by SoCalGas' System Operator. The following table provides the number of OFOs by month for each of the balancing tolerances:

⁵ On June 25, 2020, SoCalGas submitted a letter to Executive Director Alice Stebbins seeking an extension of time to comply with OP 1 of Res. G-3563 due to implementation delays resulting from the COVID-19 emergency condition. The request was subsequently approved postponing DAS full implementation to November 1, 2020.

⁶ D.19-08-002 at p. 17.

	Number of Declared OFOs	Tolerances of Declared OFOs
<u>Low OFOs⁷</u>		
December	16	-5% (16)
January	15	-5% (15)
February	8	-5% (8)
March	17	-5% (17)
April	1	-5% (1)
May	0	N/A
<u>High OFOs</u>		
December	3	7% (3)
January	2	14% (1), 7% (1)
February	0	N/A
March	0	N/A
April	6	17% (1), 10% (5)
May	13	15% (4), 13% (2), 7% (1), 6% (5), 5% (1)

SoCalGas' Gas Acquisition Department incurred non-compliance charges totaling \$11,953 as summarized in the following table:

Date	Event	Stage / Tolerance	Non-compliance Charges (\$)
Jan 19, 2021	High OFO	1 / 14%	11,953

Mitigation Measures Taken

SoCalGas' Gas Acquisition Department took several mitigation measures to minimize its exposure to non-compliance charges on OFO days. Gas Acquisition believes these mitigation measures have resulted in lost opportunities for reducing procurement costs against benchmark for the benefit of bundled core customers. These cost impacts are not calculable without making significant assumptions, which affect their usefulness.

1. Gas Acquisition continued to use daily Usage Guidelines to address observed uncertainty in forecast core demand. These Usage Guidelines reflected observed deviations between historical same day usage forecasts provided by the Regulatory Forecasting Group and estimated actual usage which were periodically monitored. Additional usage uncertainties resulted from COVID-19

⁷ Low OFO non-compliance charges were waived for January 1st, per Rule No. 30, Section G.1.h.

virus-related business impacts first observed in mid-March 2020. Changes to both core residential and core commercial and industrial (C&I) usages remained somewhat unpredictable given historical usage data. Gas Acquisition and the Regulatory Forecasting Group communicated frequently regarding these observations and established formal bi-weekly meetings to discuss trend observations and changes to forecast assumptions. Gas Acquisition's Usage Guidelines were modified when deemed appropriate.

2. Gas Acquisition's Usage Guidelines assisted in determining the likelihood of whether planned daily deliveries would result in daily OFO non-compliance charges. Use of the Usage Guidelines resulted in Gas Acquisition reducing its deliveries on days when High OFOs were anticipated or observed and increasing its deliveries on days when Low OFOs were observed.
3. Starting February 1st, 2021, the nomination deadline for Cycle 6 was moved to the day after flow. This change allowed Gas Acquisition the opportunity to use the preliminary usage data from DAS to adjust Cycle 6 nominations into and out of its storage account when sufficient injection or withdrawal capacity remained on OFO days.
4. Gas Acquisition met its Gas Cost Incentive Mechanism winter storage targets.

Protest and Reply

This is an Information-Only AL submittal. Pursuant to General Order (GO) 96-B Section 6.2, Joint Investor-Owned Utilities are not seeking relief through this AL, and thus, this AL is not subject to protest.

Effective Date

Pursuant to OP 4 of D.19-08-002, SoCalGas and SDG&E request that this Tier 1 Information-Only AL become effective upon the date of submittal, which is June 30, 2021.

Notice

A copy of this AL is being sent to SoCalGas' GO 96-B service list and the Commission's service list in A.17-10-002. Address change requests to the GO 96-B service list should be directed via e-mail to Tariffs@socalgas.com or call 213-244-2837. For changes to all other service lists, please contact the Commission's Process Office at 415-703-2021 or via e-mail at Process_Office@cpuc.ca.gov.

ADVICE LETTER SUMMARY

ENERGY UTILITY

MUST BE COMPLETED BY UTILITY (Attach additional pages as needed)

Company name/CPUC Utility No.:

Utility type:

ELC GAS WATER
 PLC HEAT

Contact Person:

Phone #:
E-mail:
E-mail Disposition Notice to:

EXPLANATION OF UTILITY TYPE

ELC = Electric GAS = Gas WATER = Water
PLC = Pipeline HEAT = Heat

(Date Submitted / Received Stamp by CPUC)

Advice Letter (AL) #:

Tier Designation:

Subject of AL:

Keywords (choose from CPUC listing):

AL Type: Monthly Quarterly Annual One-Time Other:

If AL submitted in compliance with a Commission order, indicate relevant Decision/Resolution #:

Does AL replace a withdrawn or rejected AL? If so, identify the prior AL:

Summarize differences between the AL and the prior withdrawn or rejected AL:

Confidential treatment requested? Yes No

If yes, specification of confidential information:

Confidential information will be made available to appropriate parties who execute a nondisclosure agreement. Name and contact information to request nondisclosure agreement/ access to confidential information:

Resolution required? Yes No

Requested effective date:

No. of tariff sheets:

Estimated system annual revenue effect (%):

Estimated system average rate effect (%):

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected:

Service affected and changes proposed¹:

Pending advice letters that revise the same tariff sheets:

¹Discuss in AL if more space is needed.

Protests and all other correspondence regarding this AL are due no later than 20 days after the date of this submittal, unless otherwise authorized by the Commission, and shall be sent to:
