To: Energy Company Filing Advice Letter

From: Energy Division PAL Coordinator

Subject: Your Advice Letter Filing

The Energy Division of the California Public Utilities Commission has processed your recent Advice Letter (AL) filing and is returning an AL status certificate for your records.

The AL status certificate indicates:

Advice Letter Number Name of Filer CPUC Corporate ID number of Filer Subject of Filing Date Filed Disposition of Filing (Accepted, Rejected, Withdrawn, etc.) Effective Date of Filing Other Miscellaneous Information (e.g., Resolution, if applicable, etc.)

The Energy Division has made no changes to your copy of the Advice Letter Filing; please review your Advice Letter Filing with the information contained in the AL status certificate, and update your Advice Letter and tariff records accordingly.

All inquiries to the California Public Utilities Commission on the status of your Advice Letter Filing will be answered by Energy Division staff based on the information contained in the Energy Division's PAL database from which the AL status certificate is generated. If you have any questions on this matter please contact the:

Energy Division's Tariff Unit by e-mail to edtariffunit@cpuc.ca.gov

Advice No. 6199-G (U 904 G)

Public Utilities Commission of the State of California

### Subject: Revisions to Schedule Nos. G-BSS, G-LTS, and G-TBS Pursuant to Decision (D.) 09-11-006

Southern California Gas Company (SoCalGas) hereby submits revisions to its tariff Schedule Nos. G-BSS (Basic Storage Service), G-LTS (Long-Term Storage Service), and G-TBS (Transaction Based Storage Service), as shown on Attachment A.

#### <u>Purpose</u>

This compliance submittal seeks approval of the California Public Utilities Commission (Commission) to revise Schedule Nos. G-BSS, G-LTS, and G-TBS to increase the In-Kind Energy Charge from 2.04% to 4.28%, effective November 1, 2023.

#### **Background**

In D.09-11-006, the Commission approved San Diego Gas & Electric Company's and SoCalGas' 2009 Biennial Cost Allocation Proceeding (BCAP) Phase Two Settlement Agreement (SA).<sup>1</sup> Section II.B.2.G (page 10) of the SA states:

# The initial injection fuel rate shall be set at 2.4% for the first full storage year under this settlement commencing on April 1, 2010 and shall be adjusted for each subsequent storage year under this settlement on the basis of a three-year rolling average.

The term "initial injection fuel rate," used in the SA, is synonymous with the term "In-Kind Energy Charge," which has been used in Schedule Nos. G-BSS, G-LTS, and G-TBS.

<sup>&</sup>lt;sup>1</sup> Appendix A to D.09-11-006.

On December 8, 2009, SoCalGas submitted revisions to its tariffs (including Schedule Nos. G-BSS, G-LTS, and G-TBS) with Advice No. (AL) 4047 to comply with Ordering Paragraph (OP) 4 of D.09-11-006 to implement and carry out the terms and conditions of the SA and to present the necessary tariff revisions. The revisions to Schedule Nos. G-BSS, G-LTS, and G-TBS, which also reflected the initial In-Kind Energy Charge of 2.40%, were approved by the Energy Division on January 19, 2010, and made effective April 1, 2010, for the 2010 storage year (April 1, 2010 through March 31, 2011). Subsequent advice letters submitted annually used the same Commission-approved methodology of three-year rolling average for the calculation of In-Kind Energy Charges were approved by the Commission.

In OP 18 of D.16-06-039 the Commission authorized SoCalGas to sell an *equivalent* gas compressor fuel volume in order to pay for the electricity costs of the electric compressors at SoCalGas' storage fields. The Aliso Canyon Turbine Replacement (ACTR) project was placed into service in May of 2018. Using performance data from 2022, an electric cost adjustment has now been applied, in addition to the previous three-year average rate calculation, to accommodate Southern California Edison Company's electricity bills. The adjustment uses the current forward Border price strip to anticipate the additional Dth collection requirements to pay for electricity within the 2023-2024 Storage year.

SoCalGas has determined that, with D.23-08-050 increasing the interim storage limit of working gas at the Aliso Canyon Gas Storage Facility to 68.6 Bcf, the In-Kind Energy Charge for the remaining 2023 Storage Year (November 1, 2023 through March 31, 2024) should be 4.28%.

The back-up calculations for the In-Kind Energy Charge for the 2023 storage year are shown on Attachment B. SoCalGas believes that the tariff revisions shown on Attachment A are necessary to implement the Commission's decision.

#### Protest

Anyone may protest this advice letter to the Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The protest must be submitted electronically and must be received within 20 days after the date of this advice letter, which is October 19, 2023. Protests should be submitted to the attention of the Energy Division Tariff Unit at:

E-mail: EDTariffUnit@cpuc.ca.gov

In addition, protests and all other correspondence regarding this advice letter should also be sent electronically to the attention of:

Attn: Gary Lenart Regulatory Tariff Manager E-mail: <u>GLenart@socalgas.com</u> E-mail: <u>Tariffs@socalgas.com</u>

#### Effective Date

SoCalGas believes that this submittal is subject to Energy Division disposition, and should be classified as Tier 2 (effective after staff approval) pursuant to General Order (GO) 96-B. This submittal is consistent with D.09-11-006. Therefore, SoCalGas respectfully requests that this submittal be approved on October 29, 2023, which is thirty calendar days after the date submitted and made effective November 1, 2023 (see the Background section above).

#### <u>Notice</u>

A copy of this advice letter is being sent to SoCalGas' GO 96-B service list and the Commission's service list for A.18-07-024, 2020 TCAP. Address change requests to the GO 96-B service list should be directed via e-mail to <u>Tariffs@socalgas.com</u> or call 213-244-2424. For changes to all other service lists, please contact the Commission's Process Office at 415-703-2021 or via e-mail at <u>Process Office@cpuc.ca.gov.</u>

Rate, percent reduction ...... 4.28%

The In-Kind Energy Charge shall be adjusted as necessary on the basis of a three-year rolling average of actual fuel use.

#### **Billing Adjustments**

Billing adjustments may be necessary to reflect changes in quantities applicable under this schedule or changes in costs used in prior period's storage charges.

#### SPECIAL CONDITIONS

#### General

- 1. The definitions of the principal terms used in the Utility's tariff schedules are contained in Rule No. 1.
- 2. Storage service under this schedule shall be curtailed in accordance with the provisions of Rule No. 23.
- 3. All terms and conditions of Rule No. 30 and Schedule No. G-IMB shall apply to the transportation of customer-owned gas in conjunction with the storage services provided under this schedule.
- 4. As a condition precedent to service under this schedule, an executed Master Services Contract, Schedule F, Long-Term Storage Service (Form Nos. 6597 and 6597-6) is required. All contracts, rates and conditions are subject to revision and modification as a result of Commission order.
- 5. The minimum contract term for service under this schedule shall be three years and the maximum contract term shall be fifteen years.
- 6. The storage year for long-term contract service shall begin on April 1 and continue thereafter for a twelve month period. Eligible customers may contract for long-term storage service anytime during this period but the annual reservation charges applicable for the initial storage year shall not be prorated unless otherwise agreed to by the Utility.
