RESOLUTION NO. _____

Rule No. 38 Special Conditions: Metering and Gas Usage
Commercial & Industrial Equipment Incentive Program
Attachment to Form No. 6700-1

7.0 Special Conditions: Metering and Gas Usage

Check and Initial Applicable Paragraphs:

7.1 Baseload Gas Use
[] *Customer Initials*

Except as may be modified immediately below, historic actual gas consumption for the 24-month period prior to signing the Agreement is used to establish the average baseload of _____ therms per year ("Baseload"). Consumption greater than this Baseload will be considered towards fulfilling Customer's obligation to use the Equipment in the manner disclosed in Paragraph 7.4 below.

Modifications to Paragraph No. 7.1
[] *Customer Initials*

7.2 Metering
[] *Customer Initials*

Customer shall install the energy Equipment in a manner such that metering devices can readily and safely be installed and accessed. Customer shall allow SoCalGas routine access to the measurement-related facilities and measurement logs, to verify meter reads and accuracy. Equipment gas consumption shall be metered during the Term of Use by one of the methods below.

a) SoCalGas shall install a separate, permanent Utility-owned gas billing meter in accordance with Rule No. 13, Meters and Appliances, and when applicable with Rule No. 21, Gas Service Extensions.

b) Other: "Measurement Plan" approved by Utility and attached herein, titled: _____

Modifications to Paragraph No. 7.2
[] *Customer Initials*

7.3 Rate Schedule
[] *Customer Initials*

Except as may be modified immediately below, Customer must take gas under Utility's noncore GT-F or GT-I tariff rate schedule for the entire Term of Use as long as Customer qualifies for at least one of these rates or until both Customer and Utility mutually agree on a different rate.

Modifications to Paragraph No. 7.3
[] *Customer Initials*

7.4 Gas Requirements/Customer Equipment Disclosure

[____] *Customer Initials*

Customer discloses that Equipment will have a collective rated capacity of _____ MMBtu/h, and during the Term of Use will consume a Minimum Annual Quantity ("MAQ") of not less than _____ therms of gas per year (including Baseload use when the box by Paragraph 7.1 is checked), to be assessed each 12 months following the Commencement Date. If a period of fewer than 12 months remains at the end of the Term of Use, a pro-rata portion of the MAQ applies. Except as may be modified immediately below, if actual usage falls below this MAQ, Customer will be subject each contract year to an additional charge equal to the difference in Transmission Charges between Customer's actual usage and MAQ in that time period. MAQ adjustments will be made to the extent consumption is reduced specifically due to intrastate curtailment or an event of force majeure, as defined in Rule No. 1, on either the interstate or intrastate systems.

Modifications to Paragraph No. 7.4
