

Schedule No. GTO-IR

Sheet 1

TRANSPORTATION-ONLY INCREMENTAL RATE FOR EXISTING EQUIPMENT
FOR CORE COMMERCIAL AND INDUSTRIALAPPLICABILITY

Pursuant to Decision 18-05-006, effective May 10, 2018, this Schedule is closed to new contracts.

Applicable to transportation-only or aggregation service as specified in the customer's Otherwise Applicable Tariff for qualifying incremental usage to existing non-residential customers served or who qualify to be served under a core rate schedule as defined in Rule No. 1. Incremental usage applies to additional gas load for existing under-utilized equipment as defined in Special Condition 1 of this schedule. The customer must sign an affidavit stating that the terms and conditions of this Schedule are a material factor in its decision for adding incremental usage in its existing gas-fired equipment through the natural gas service provided by SoCalGas.

Service under this Schedule is optional subject to the terms and conditions set forth herein.

TERRITORY

Applicable throughout the service territory.

RATES

As determined by SoCalGas and unless otherwise stated in this Schedule or the Optional Rate Agreement and Affidavit (Agreement), all charges and provisions of the Otherwise Applicable Tariff rate schedule shall apply. The transmission charges for incremental usage shall be the customer's Otherwise Applicable Tariff transmission rate discounted by a minimum of 10% based upon the competitive alternative. The discount shall apply only to the transmission component and shall not cause the rate to drop below the CPUC-authorized floor. The discounted rates are based upon a specific customer's Otherwise Applicable Tariff determined by that customer's specified incremental usage as set forth in the Agreement. At the end of each year of the Agreement term, the overall rate shall be compared to the published floor and trued-up so that the overall rate does not drop below the CPUC-authorized floor.

The discount does not apply to revenues collected for the California Alternate Rates for Energy (CARE), the Public Utilities Commission Reimbursement Fee, taxes, or other flow-through charges.

Customer Charge

Per the Otherwise Applicable Tariff Rate Schedule.

Other Charges

Customer may be subject to annual rate adjustments if consumption falls below agreed upon volumes set forth in Section 6.1 of the Agreement.

The discounted rate shall be compared to the floor and annually trued-up so that the overall rate does not drop below the CPUC-authorized floor.

The minimum monthly charge shall consist of the monthly Customer Charge and any throughput penalty charges as stipulated in Section 6.1 of the Agreement.

The number of therms to be billed shall be determined in accordance with Rule No. 2.
